

September 2016

Inspector's Schedule of Main Modifications

to the Cornwall Local Plan Strategic Policies Proposed Submission Document 2010-2030 (March 2014) which incorporates the Schedule of Focused Changes (September 2014).

The proposed changes are expressed in the form of ~~strikethrough~~ for deletions and **bold underlining** for additions of text.

The page numbers, policies and paragraph numbering below refer to the Cornwall Local Plan Strategic Policies Proposed Submission Document (March 2014). Chronological paragraph and policy numbering, consistent with the final form of the plan will need to be incorporated into the plan when it is adopted.

Main Modifications	Page	Policy/ Supporting Text	Proposed modification
1	6	1.5	That paragraph 1.5 be amended to read: The National Planning Policy Framework (NPPF) sets out the Government’s planning policies for England and how these are expected to be applied. It provides the framework within which local communities and councils can produce their own distinctive local and neighbourhood plans. <u>The Cornwall Local Plan seeks to be fully consistent with the NPPF and does not repeat national policy but sets out a clear approach for dealing with proposals.</u> <i>The Cornwall Local Plan: Strategic Policies document sets out policies that are:</i> <i>Spatial</i> – setting the overall strategy; <u>and</u> <i>Topic based</i> – which will be applicable to most proposals; and <i>Place based</i>—specific for each community network area setting out the priorities for each area.
2	10	1.20	That Objective 3 be amended to read: Provide and enhance retail provision <u>within our towns and City</u> with a regional and sub-regional status that adds to economic growth and provide opportunities to improve existing facilities for better economic performance.
3	12	Policy 1	Amend Policy 1 to read: Policy 1: Presumption in favour of sustainable development When considering development proposals the Council will take a positive approach that reflects the presumption in favour of sustainable development contained in the National Planning Policy Framework and set out by the

Main Modifications	Page	Policy/ Supporting Text	Proposed modification
			policies of this Local Plan. We will work with applicants, infrastructure providers and the local community to find solutions which mean that proposals will be approved wherever possible, and to secure development that improves the <u>economic, social and environmental conditions</u> in the area. Planning applications that accord with the policies in this Local Plan and supporting Development Plan and Supplementary Planning Documents (including, where relevant, with policies in Neighbourhood Plans) will be regarded as sustainable development and be approved, unless material considerations indicate otherwise. When considering whether a development proposal is sustainable or not, account will be taken of its location, layout, design and use against the three pillars of economic development, social development and environmental protection and improvement. Where there are no policies relevant to the application <u>or relevant policies are out of date</u> at the time of making the decision the Council will grant permission unless material considerations indicate otherwise – taking into account whether: a) Any adverse impacts of granting permission would significantly and demonstrably outweigh the benefits, when assessed against the policies in the National Planning Policy Framework taken as a whole; or b) Specific policies in that Framework indicate that development should be restricted.
4	12	1.21	New paragraph before 1.21 to read: <u>Our economic strategy seeks to improve conditions for business and investment providing, for an overall increase in jobs supporting the provision of better paid full-time employment opportunities, to drive an increase in the Gross Value Added to above 75% of the EU's average.</u>
5	12	1.21	Amend paragraph 1.21 to read:

Main Modifications	Page	Policy/ Supporting Text	Proposed modification
			Our overall aim is to support economic growth in Cornwall by providing a planning policy framework that is positive towards business and adheres to Cornwall Council and the Local Economic Partnership's LEP's economic strategies, strategy and is supported by an investment strategy to channel public funds that optimise opportunity and private investment. This will happen at different scales and in different types of jobs depending on the local situation. New business will be crucial to our future but established business will be too. The ability for farming and fishing to adapt to the future demands of more local food supplies will be an important element in this.
6	12	1.22 and 1.23	Delete paragraphs 1.22 and 1.23
7	13	1.24	Move paragraph 1.24 to before paragraph 1.28 and amend to read: Underpinning all this is the need to protect the quality and natural beauty, including the landscape, ecology and historic character of our environment, for its own sake but also as an economic driver and to build and maintain resilience to climate change. To achieve this will require a positive approach to managing new development. In some cases, adaptations to accommodate the likely impacts of climate change will be required to allow for development to proceed. <u>Cornwall's unique character is reflected in a range of designations from its cultural history in terms of World Heritage Site status, the importance of its biodiversity in European and Nationally designated areas of biodiversity through to the quality of its landscape with over 30% of the landscape designated as Areas of Outstanding Natural Beauty (AONB). The quality of the environment is not limited to those areas recognised by National designations, but the plan does need to reflect in its strategy the particular importance attached to designated areas. For that reason, the dispersed approach to development is more constrained in those areas where designated landscapes or biodiversity assets limit capacity or the speed of future growth.</u> <i>(Minor editing of published change.)</i>
8/1	13	1.23	Insert new paragraphs after 1.23 to read:

Main Modifications	Page	Policy/ Supporting Text	Proposed modification
			<u>China clay remains a significant business in Cornwall despite mining declining more widely. The other traditional cornerstones of our economy, farming and fishing, have continued to modernise, and we intend to support this into the future. Currently, two thirds of jobs are in retail, health education and accommodation related sectors. However, Cornwall has a strong propensity and opportunity for particular specialisms including marine activities, food production and mining, as well as tourism.</u> <u>While the economy is forecast to continue to grow, both the Council and LEP economic strategies identify key structural weaknesses in our economy particularly from poor connectivity and low productivity, wages and skills. Skills and productivity are a priority focus of the LEP and for European funding. The respective strategies also target key interventions; with an Enterprise Zone established at Newquay International Airport, proposals for two agri-food enterprise zones in the east and support for the exploitation of geothermal energy in central Cornwall.</u> <u>The economic strategies also focus on 'smart specialisation'. This is a rational approach to what sectors or group of sectors or supply chains have a natural advantage in Cornwall because of the environment or existing facilities. The Plan aims to ensure that policies are appropriately flexible to respond to specific requirements of new and growing business.</u> <u>This flexibility will help to ensure that proposals are able to provide the space and locations that employment markets require across Community Network Areas in the most appropriate location. All developments will need to ensure that the environment is protected in line with the policies of this plan.</u> <u>The private sector will always provide the lion's share of business investment; the strategies aim to facilitate this investment. Where the market would not otherwise invest, or where there is a clear public sector role, such as the provision of strategic infrastructure, the Council and LEP will continue to take a pro-active role to support improvements in productivity and connectivity. This plan aims to</u>

Main Modifications	Page	Policy/ Supporting Text	Proposed modification
			<u>ensure that there are homes and employment space of the right type and in the right place to support labour market flexibility.</u> <u>The spatial implications of all this is varied. Some business will need specific space related to a unique asset such as the maritime or aerospace sectors, while many will be increasingly footloose with the development of infrastructure such as super-fast broadband. The Plan aims to provide a balance. Strategic scale developments should be located at the larger towns with the most appropriate infrastructure to support their delivery.</u> <u>The spatial strategy aims to support ongoing economic growth across Cornwall by providing a supportive planning environment for private investment, as well as key public sector intervention and support. The delivery of employment space targets is a key component of this strategy by providing for the broader and established activities of our economy.</u> <i>(Minor editing of published change – penultimate paragraph “<u>at the larger towns</u>” for consistency with other changes.)</i>

Main Modifications	Page	Policy/ Supporting Text	Proposed modification
8/2	13	1.23	Insert new paragraphs after 1.23 to read <u>The housing distribution in this Plan aims to support economic growth through both the anticipated private sector investment and the public sector intervention, seeking to best meet the need for affordable housing. All types of development should ensure the protection and, where possible, enhancement of the environmental quality and assets of Cornwall, safeguarding its landscape, biodiversity, geodiversity and World Heritage Status.</u> <u>The particular focus for economic growth in Cornwall is identified in sectors, interrelationships between those sectors, and clusters of sectors, creating opportunities for improvement in productivity and a more flexible labour market. Key sectors for Cornwall include smart specialisation (as described above) focussed on: aerospace/satellite/space; marine-tech; agri-tech; e-health; and digital economy. The specific focus is on productivity gains that develop the value and job focus of the supply chain.</u> <u>A continued focus is given to other clusters of particular opportunity in Cornwall: renewable energy technologies; earth sciences (including minerals); culture industries; health; tourism; marine; and food and drink production. This represents not just the supply chain elements but also linkage opportunities between the sectors, e.g. creative/digital/design; health & technology; marine renewables.</u> <i>(Minor editing of published change – first paragraph: “where possible, enhancement” for consistency with other changes.)</i>
8/3	13	1.23	Insert new paragraphs after 1.23 to read <u>Much of the employment in the emerging smart specialisation sectors relates to increasing their ‘drivers of productivity and production’ including: research and development capacity; labour market skills; access to finance; improved connectivity to new markets; and other investments to improve competitive advantage, such as grow on space. As these sectors grow, many are moving to activities</u>

Main Modifications	Page	Policy/ Supporting Text	Proposed modification
			<u>that will need more physical space for production and maintenance. At this time it is difficult to be precise about the locational need for employment space requirement for these businesses, and a flexible approach is taken by this Plan to allow locational needs to be understood as the sectors mature. It would not be appropriate to limit a particular type of employment to one particular CNA. There will increasingly be clear links through the specific location opportunities – such as clustering of related sectors or need for access to environmental assets such as the sea.</u>
8/4	13	1.23	<u>Rather than providing targets to specific places, this Plan addresses this need for flexibility through the geography of Community Network Areas, with targets adjusted to better match the economic strategies and public funding streams. The employment space targets in the Plan have been adjusted upwards in:</u> <u>● Camborne-Pool-Redruth - to deliver growth on space for business particularly in (advanced) engineering related activity;</u> <u>● Bodmin - to support growth aspirations in clusters such as agri-tech and opportunities from A30 and logistics;</u> <u>● Falmouth - particularly for marine and renewables innovation and the creative cluster developing there;</u> <u>● Hayle - for renewables technology; and</u> <u>● Newquay - associated primarily with aerospace and wider engineering opportunities as well as the vibrant tourism cluster.</u> <u>These have a particular focus in areas where they benefit from locational advantage. Other areas, particularly Truro, continue to have strong forecast for employment needs and this is reflected in the employment land available and the targets of this Plan.</u> <u>In addition, the economic strategies aim to support growth across wider geographic areas. The Plan's employment space targets ensure provision particularly for:</u> <u>● agri-tech and food/drink growth (and their supply chain) in the wider area of Cornwall's eastern</u>

Main Modifications	Page	Policy/ Supporting Text	Proposed modification
			<u>Travel to Work Areas;</u> ● <u>logistics related activities across central Cornwall optimising the combined opportunities between the mid-Cornwall growth corridor of Newquay – Bodmin – St Austell/Clay Country;</u> ● <u>appropriately scaled maritime and marine focus in the key ports and harbours of Hayle, Penzance/Newlyn, Falmouth, Fowey, Looe and Saltash;</u> ● <u>creative industries in the Penzance and St Ives areas;</u> ● <u>focus of Culture in West Cornwall, Falmouth and historic records in Redruth; and</u> ● <u>retail, with continued support for town centres.</u> <u>Neighbourhood Plans will help to drive solutions and provision for local infrastructure and economy requirements, and help to focus opportunities. Specific land allocations and strategic sites will be identified in the Allocations DPD and Neighbourhood Plans, as clarity about the needs of these locations and sectors emerge. Allocations should also be considered where less than two thirds of the employment land target for the area (as set out in policy 2a) is 'available' in terms of planning permission.</u> <u>Infrastructure remains a key factor for the Cornwall and LEP strategies, with particular shared focus to deliver improvements to the road network of the A30 (Carland Cross-Chiverton and around Hayle), A391 (St Austell to A30), A393 (Falmouth to Redruth), and a stronger and more integrated transport system across Cornwall that includes upgrades to rail and rolling stock and Newquay Airport.</u>
9	13	1.25	New paragraph after 1.25 to read: <u>Cornwall's main towns are the focus for a strategic scale of development to meet their needs and the needs of their surrounding hinterland. While each town has an important role, the scale and nature of that role does vary. For example, Falmouth and Penryn host the hub of Cornwall's University, while St Ives, Penzance and Newlyn have a major arts heritage. This is reflected in many of the economic opportunities and cultural character of the area. Many towns have this dual role and</u>

Main Modifications	Page	Policy/ Supporting Text	Proposed modification
			<u>character, both meeting local needs and having a wider pan Cornwall role. The Plan, while supporting a dispersed approach across Cornwall, also seeks to identify areas of specific focus. The recognition of this diversity, is in part, why Cornwall is committed to support the development of Neighbourhood Plans. It is Neighbourhood Plans that will provide an appropriate planning framework within this strategic framework, while celebrating and developing the differences in character and nature across Cornwall.</u>
10			<i>Not needed for soundness.</i>
10a	13	1.24	<i>Not needed for soundness (as it repeats MM7).</i>
11	13	1.28	<u>Policy 2</u> The spatial policies establishes our priorities for planning decisions. <u>Policies 2a, 3, 4 and 5 provide additional guidance on how the spatial strategy will be implemented across Cornwall, and how the growth required will be split to achieve the sustainable growth required by Policies 1 and 2. Policies 6 to 27 are thematically based to provide additional guidance on the type, form and standard of development that the plan seeks to achieve.</u>
12	13	Policy 2	Delete Policy2 - Key targets and spatial strategy and replace with changes 13 & 15
13	13	Policy 2	Amend Policy 2 to read: <u>Policy 2 – Spatial Strategy:</u> <u>New development should provide a sustainable approach to accommodating growth, providing a well balanced mix of economic, social and environmental benefits. This should maintain the dispersed development pattern of Cornwall and provide homes and jobs based on the role and function of each place. Strategic scale growth will be accommodated in our main towns and city where they can best support regeneration and sustainable development. Overall, development should seek to meet the following objectives of the Plan for Cornwall:</u> <u>1. Respecting and enhancing quality of place:</u>

Main Modifications	Page	Policy/ Supporting Text	Proposed modification
			<u>Proposals should maintain and respect the special character of Cornwall, recognising that all urban and rural landscapes, designated and undesignated, are important by:</u> <u>a. Ensuring that the design of development is high quality and demonstrates a cultural, physical and aesthetic understanding of its location;</u> <u>b. Considering the impact of development upon the biodiversity, beauty and diversity of landscape and seascape, character and setting of settlements, wealth of natural resources, agricultural, historic and recreational value of Cornwall;</u> <u>c. Identifying the value and sensitivity, of the character and importance of landscapes, biodiversity and geodiversity and historic assets;</u> <u>d. Protecting, conserving and enhancing the natural and historic landscape, heritage, cultural, biodiversity and geodiversity assets of Cornwall in recognition of their international, national and local status, in accordance with national legislation and policy, as amplified by the other policies of this plan.</u> <u>2. Providing solutions to current and future issues:</u> <u>Proposals should assist the creation of resilient and cohesive communities by:</u> <u>a. Delivering renewable and low carbon energies, increasing energy efficiency and minimising resource consumption through a range of renewable and low carbon technologies;</u> <u>b. Ensuring that built and environmental assets can adapt to and be resilient to climate change;</u> <u>c. Creating landscapes and biodiversity and geodiversity assets that are resilient and sensitively accommodating investment and growth within Cornwall's unique landscape and wealth of biodiversity and geodiversity, ensuring that people continue to be drawn to Cornwall to visit and invest and for a thriving healthy population to live and work;</u> <u>d. Supporting the delivery of made Neighbourhood Plans and other community based initiatives that help to make communities more resilient.</u> <u>3. Generating and sustaining economic activity:</u>

Main Modifications	Page	Policy/ Supporting Text	Proposed modification
			<u>Proposals will be welcome that improve conditions for business and investment in Cornwall, in particular by:</u> <u>a. Supporting key regeneration activities and the economic vision for Cornwall;</u> <u>b. Providing homes and jobs in a proportional manner, where they can best sustain the role and function of local communities and that of their catchment;</u> <u>c. Supporting the expansion of existing businesses and the indigenous businesses of agriculture, fishing and mining;</u> <u>d. Safeguarding waterfront sites, docks and ports to provide for marine businesses;</u> <u>e. Maximising the economic growth and benefits of education, skills development, research, and the colleges and Combined Universities in Cornwall;</u> <u>f. Supporting employment schemes in both towns and rural areas, giving particular emphasis to quality, permanent work opportunities that break seasonal labour cycles;</u> <u>g. Supporting smart specialisation sectors including; food; aerospace; marine; renewable energies (including geothermal); and cultural industries;</u> <u>h. Supporting the provision of work hubs and the ability to work from home through live/work units;</u> <u>i. Supporting the Enterprise Zone Aerohub at Newquay Airport as an economic catalyst for the wider Newquay, Clay Country and St Austell area through improved linkages;</u> <u>j. Supporting the economic regeneration of Camborne, Pool and Redruth;</u> <u>k. The regeneration of Hayle, focussing mainly on the harbour area and the development of the wave hub and associated employment development;</u> <u>l. Optimising the economic opportunity and maximising existing linkages in mid-Cornwall by:</u> <u>i. supporting the role of Bodmin as a strategic employment location taking advantage of its position on the transport network;</u> <u>ii. identifying mixed use development to deliver the eco-community at West Carclaze / Baal and Par Docks, to help deliver an exemplar development that provides a showcase for sustainable, greener, low carbon living;</u>

Main Modifications	Page	Policy/ Supporting Text	Proposed modification
			<u>iii. supporting the economic regeneration of St Austell as a centre for retail, business and leisure with a focus on promoting 'green' industries;</u> <u>m. Supporting economic development in South East Cornwall that meets the area's own needs and benefits from its relationship with Plymouth;</u> <u>n. Supporting Truro's wider role as an economic and service centre and maintaining its role in the retail hierarchy and as a retail alternative to major centres outside of Cornwall;</u> <u>o. Strengthening the role of Launceston and Saltash as gateways to Cornwall;</u> <u>p. Supporting the economic regeneration of Penzance, including the improvement of Penzance Harbour, and retention of a main line rail link to Penzance as a strategic link for Cornwall and the UK.</u>
14	15	Paragraph after Policy 2	Insert new paragraphs after Policy2 to read: <u>To achieve the overall objectives of the Plan it is necessary to manage the location and scale of new housing and employment space. Housing targets are derived from; demographic need and consideration of a range of factors, including what are termed 'market signals', economic growth projections, the needs of particular groups and the delivery of affordable homes. This is set out in the Council's Strategic Housing Market Assessment and updated by the Council's Full Assessment of Objectively Assessed Need for the Plan period.</u> <u>In addition to the need for new homes, the plan makes allowance for permanent and transit pitches to meet the needs of Gypsies, Travellers and Travelling Showpeople; and an increase in places within communal establishments such as additional purpose-built student accommodation, to mitigate any future student growth pressures on the existing housing stock, and accommodation for older people.</u> <u>The economic strategy is based on assumptions of projections of continued economic growth, combined with the influence of the economic strategies of the Council and the LEP, as well as the implementation of substantial European funding programmes. Taking account of the current key areas of weakness in our economy, our strategies aim to exceed GVA and increase productivity by</u>

Main Modifications	Page	Policy/ Supporting Text	Proposed modification
			<u>improving skills and qualifications. This will support economic growth but also be focussed on key areas of 'smart specialisation' for Cornwall.</u> <u>Economic growth will continue within the main employment and business sectors, but the strategy will support and enable niche markets to emerge, capitalising on Cornwall's unique set of characteristics. These markets are set out earlier in this document and have already benefited from key interventions such as the Newquay Aerohub Enterprise Zone.</u> <u>In addition, improving productivity is a key target for European funding streams. Targeted programmes such as 'Growth Programme' (2014-20) have already estimated a target of nearly 5,000 people to improve skills and enable people to join the existing workforce or to benefit from better paid jobs. Recent studies indicate that broadly 15,000 people in the labour market could move into or secure higher value jobs or backfill jobs vacated.</u> <u>The Plan aims to provide the space and conditions to support approximately 38,000 jobs over the Plan period. These are full time equivalent jobs but, due to the nature of Cornwall's economic sectors, will inevitably include a proportion of part time jobs. The target is based on economic projections that incorporate factors such as European funding programmes and the addition of space created through this support.</u> <u>Although it is recognised that the employment space proposed amounts to only a portion of the overall employment that will be provided, it is still a key factor in delivering the economic strategies. The employment space planned for in Policy 2a is derived from the Council's Employment Land Review, and incorporates a 40% over provision to take account of the non-delivery of some sites and flexibility of appropriate space. These are adjusted largely within the respective Travel to Work Areas to reflect both the Council and LEP's economic strategies, and the associated investments being made to enable them, and the employment needs of the economy are commensurate with the distribution of housing growth.</u> <u>Office space and other business uses are given separate targets to reflect the relative need in any</u>

Main Modifications	Page	Policy/ Supporting Text	Proposed modification
			<u>particular area. They are measured in square metres based on a ratio of approximately 40% built floorspace in every hectare of employment land. In some areas a surplus of available employment space has been identified against these targets. In these areas, careful consideration will be given to the development of sites for non-employment uses.</u> <i>(Minor editing of published change in 2nd paragraph for clarity.)</i>
15	15	Policy 2a	Insert new Policy 2a to read: <i>(Minor editing of punctuation from published change for clarity.)</i> <u>Policy 2a - Key targets</u> <u>The Local Plan will provide homes in a proportional manner where they can best meet need and sustain the role and function of local communities and that of their catchment. Development proposals in the period to 2030 should help to deliver:</u> <u>1. A minimum of 52,500 homes at an average rate of about 2,625 per year to 2030, to help deliver sufficient new housing of appropriate types to meet future requirements. In particular, meeting affordable housing needs;</u> <u>2. At least 318 permanent pitches for Gypsies and Travellers, 60 transit pitches and 11 plots for Travelling Showpeople;</u> <u>3. Provide for 38,000 full time jobs and 704,000 sq. metres of employment floorspace to help deliver a mix of 359,583 sq. metres of B1a and B1b office and 344,417 sq. metres of B1c, B2 and B8 industrial premises by 2030;</u> <u>4. The provision of additional bed spaces within purpose-built accommodation commensurate with the scale of any agreed expansion of student numbers at the Penryn Campus, taking into consideration any changes in student numbers within other campuses at the university in</u>

16	15	Policy 2	Insert new wording after Policy 2a to read:																																																																				

Main Modifications	Page	Policy/ Supporting Text	Proposed modification
			<u>Note: the identification of a wider extent for the main towns where they consist of a cluster of places, e.g. Bude with Stratton, Flexbury and Poughill, does not imply that there is a presumption in favour of infilling of gaps between these settlements.</u>
17	16	1.31	Amend paragraph 1.31 to read: Specific housing targets will be provided for the main <u>and other significant</u> towns identified in Policy 3 reflecting their strategic role and function and also <u>for</u> the proposed Clay Country eco- communities. Sites for development in <u>at, or well related to</u> these towns, and <u>for the eco-communities at West Carclaze, Baal and Par Docks</u> will be identified in the Cornwall Site Allocations Development Plan Document and Neighbourhood Plans. <u>The standards expected for the proposed eco communities are set out in Policy 3 and guidance will be provided in the Site Allocations DPD.</u> <u>In some cases housing allocations and or planning permissions for a town will cross Parish and Community Network Area boundaries or abut such boundaries where this best meets the growth needs of that place. Where this is the case, development in those locations will be counted against the allocation for that town.</u> <u>The Council will monitor the delivery of the Eco Community sites to ensure delivery. If proposals have failed to progress sufficiently towards delivery within 2 years of adoption of the Local Plan this area of the plan will be reviewed to consider redistribution of the housing apportionment for the area.</u> The eco-community sites are identified as allocations in this Plan. <u>In addition, the plan seeks to ensure additional purpose built accommodation is provided for students in Falmouth and Penryn. This is to reflect and help to alleviate the very specific pressure that is placed on the local housing market for those towns and to allow for the future expansion of the university in this location. The Plan does not include a specific additional target figure for this as it will be based on the scale of expansion that the university provides during the Plan period.</u>

Main Modifications	Page	Policy/ Supporting Text	Proposed modification
			<u>The majority of parishes that do not have a town or village named in Policy 3 can meet the remaining housing requirement through the following:</u> <u>1.existing sites with planning permission;</u> <u>2.infill;</u> <u>3.small scale rounding off;</u> <u>4.the development of previously developed land within or adjoining settlements;</u> <u>5.rural exceptions sites</u> <u>There are however (at April 2016) some Community Network Areas where this is not the case. These are likely to require allocations through Neighbourhood Plans to enable the delivery of the housing requirement.</u> <u>In the rural areas of the following CNAs;</u> • <u>Bude</u> • <u>Camelford</u> • <u>China Clay</u> • <u>Cornwall Gateway</u> <u>Progress on Neighbourhood Plans and the housing provision made within them will be monitored on an annual basis to determine the scale of development remaining to be provided and therefore whether further allocations are required.</u> <u>The Local Plan housing apportionment in Table 1 sets out the level of growth expected in the Community Network Area or town. Some of this housing will already have been built since 2010 and other sites will also have obtained planning permission but not yet have been built (commitments).</u>

Main Modifications	Page	Policy/ Supporting Text	Proposed modification
			<u>In assessing how the remainder of the housing apportionment is to be met, the following factors need to be considered:</u> <u>An assessment of the deliverability of those sites with planning permission during the plan period. This is set out in the Council's Housing Implementation Strategy, updated annually; and</u> <u>An allowance made for the estimate of windfall development that is likely to come forward during the plan period.</u> <u>Together these indicate the residual level of growth that will need to be provided by allocations in either the Site Allocations Development Plan Document or Neighbourhood Plans. Progress towards this delivery of that residual requirement will be monitored annually.</u> <u>There may be a requirement to allocate or permit development of further sites above the residual housing number to ensure delivery of the target in the plan period or support the provision of a continuous 5 year land supply. The provision of critical strategic infrastructure essential to the implementation of the local plan strategy may also require additional housing sites to be permitted.</u>
18	16	1.32	Amend paragraph 1.32 to read: Elsewhere, development would be expected to focus upon meeting local need and supporting the sustainability of smaller communities <u>through windfall development, including infill sites and exceptions sites.</u> Development should be of a scale and nature appropriate to the character, role and needs of the local community.
19	16	1.33	<u>Delete paragraphs 1.33 and 1.34</u>
20	16	1.35	Amend paragraph 1.35 to read:

Main Modifications	Page	Policy/ Supporting Text	Proposed modification
			For the purposes of this policy, 'infilling' is defined as (i) the filling of a small gap in an otherwise continuously built up frontage that does not physically extend the settlement into the open countryside; or (ii) the redevelopment of an existing previously developed site within the settlement; or (iii) the rounding off of a settlement where its edge is defined by a physical feature such as a road.
21	16	1.36	Amend paragraph 1.36 to read: Many frontages however are not continuously built up and have substantial <u>large</u> gaps, <u>i.e. bigger than one or two dwellings</u> between buildings or groups of buildings. These gaps <u>can often</u> provide the setting for the village, hamlet or small settlement, and <u>or</u> add to the character of the area. <u>Proposals should consider the significance or importance that larger gaps can make to settlements and ensure that this contribution would not be significantly diminished.</u> <u>Large gaps often exist between the urban edge of a settlement and other isolated dwellings beyond the edge of the settlement;</u> they are not appropriate locations for infill development, and the development of such large <u>these</u> gaps would not therefore be considered as infill under the policies of this Local Plan. <i>(Amendment to published change - last sentence of first paragraph.)</i>
22	16	1.37	That the following be added to the end of paragraph 1.37: <u>Rounding off: This applies to development on land that is substantially enclosed but outside of the urban form of a settlement and where its edge is clearly defined by a physical feature that also acts as a barrier to further growth (such as a road). It should not visually extend building into the open countryside.</u> <u>Previously developed land: In principle the use of previously developed land within or immediately adjoining the settlement will be permitted provided it is of a scale appropriate to the size and role of the settlement.</u>

Main Modifications	Page	Policy/ Supporting Text	Proposed modification
			<u>Rural Exception sites: These are affordable housing led developments adjoining, or physically well related to, the built form of existing settlements, (they allow for a proportion of market housing where it is required to support delivery of the affordable element). The definition of these sites is set out in Policy 9 of the local plan.</u>
23	16	1.38	Amend paragraph 1.38 to read: <u>The Council is committed to supporting the development of Neighbourhood Plans to ensure delivery of the spatial strategy and key targets. Should these plans not reach submission stage within two years of the adoption of this Plan or do not make sufficient housing provision within the Neighbourhood Plan to meet key targets, the Council will undertake the necessary site allocations documents to support the delivery of the targets set out in the Local Plan.</u>
24	17	1.41	Amend by splitting paragraph 1.41 to form two paragraphs, reading: To ensure an appropriate supply of housing land in the right place and at the right time, we will ensure there is at least a 5 year supply of deliverable sites in Cornwall. The adequacy of the 5 year supply will be assessed on a local authority, Cornwall-wide, basis. It will not be appropriate to assess 5 year supply below the local authority level for the purposes of determining whether paragraph 49 of the NPPF applies. <i>[text separated to create new paragraph]</i> However, <u>Where a five year supply can be demonstrated</u>, the adequacy of supply in meeting the needs of a particular CNA or town over the whole plan period will be a material consideration when making planning decisions. Any deficiency in supply should be accommodated within the CNA with a shortfall and not be compensated for by increasing supply in other CNA's where existing supply is sufficient to meet its local plan target. <u>Working to deliver the targets provided by the network area and town figures is critical to supporting the strategy and spatial distribution, and ensuring the needs of all communities are met in a planned manner. The following chart illustrates the housing trajectory demonstrating the expected delivery of the Local Plan target for Cornwall as a whole. This will be kept up to update</u>

Main Modifications	Page	Policy/ Supporting Text	Proposed modification																																										
			<u>with more detail of sources of delivery in the Annual Monitoring Report, which will incorporate a Housing Delivery Plan. This trajectory is illustrative at this stage pending further testing of the deliverability of permitted/allocated sites.</u> <i>(Additional sentence added to published change.)</i>

25	17	Policy 3	Amend Policy 3: Role and functions of places to read:																																										

Main Modifications	Page	Policy/ Supporting Text	Proposed modification
			Policy 3 – Role and function of places The scale and mix of uses of development and investment in services and facilities should be proportionate based on the role and function of places. New development up to 2030 2010–2030 will be accommodated in accordance with the following hierarchy: 1. Delivery of the overall housing provision as set out in Policy 2 alongside larger scale housing, community, cultural, leisure, retail, utility and employment provision will be managed through a Site Allocations DPD or Neighbourhood Plans for the following locations: • Bodmin; • Bude with Stratton, <u>Flexbury</u> and Poughill; • <u>Callington</u>; • Camborne with Pool, Illogan and Redruth; • <u>Camelford</u>; • Falmouth with Penryn; • Hayle; • Helston; • Launceston; • Liskeard; • Newquay <u>with Quintrell Downs</u>; • Penzance with Newlyn, <u>Heamoore, Gulval and Longrock</u>; • Saltash; • St Austell; • St Ives with Carbis Bay; • Torpoint; • Truro with Threemilestone; and • Wadebridge.

Main Modifications	Page	Policy/ Supporting Text	Proposed modification
			<u>Development at or well related to these named towns will provide an appropriate level of affordable housing in accordance with the requirements of Policy 8.</u> 2. To promote vibrant local communities and support local services, an appropriate level of growth and investment will be encouraged settlements to reinforce their role as providers of employment; community; leisure; and retail facilities. <u>2. The provision of eco-communities at West Carclaze/Baal and Par Docks with an indicative overall scale of about 1,500 and 500 dwellings respectively. The final scale and capacity of these proposals should be confirmed through the Site Allocations Plan.</u> <u>The proposals should be led by a masterplan and design code that will set out the framework for the development, and reflect the aspiration for environmental quality, including the delivery of all of the following alongside the other policies of this plan:</u> ● <u>30% affordable housing and 5% self and/or custom build housing;</u> ● <u>Improved access to public transport and non-car travel modes.</u> <u>And for the West Carclaze/Baal sites:</u> ● <u>Provision of employment space, Carluddon technology park and space for further economic growth;</u> ● <u>The provision of a new local centre to include facilities for health, neighbourhood shopping ,community facilities and a new primary school ;</u>

Main Modifications	Page	Policy/ Supporting Text	Proposed modification
			• <u>Strategic scale open space with public access and trails linking into existing networks as part of green infrastructure improvements;</u> • <u>The retention of the Sky Tip and other distinctive landscape features as part of the green infrastructure of the site;</u> • <u>Demonstrate high levels of energy efficiency in the fabric of buildings on the site;</u> • <u>Strategic Sustainable Urban Drainage Systems to reduce flood risk on and beyond the site;</u> • <u>Meeting all of the regulated energy requirements of the development from renewable and low carbon sources on or near to the site;</u> • <u>Provision of low carbon heat via a heat network with consideration given to sourcing that heat from geothermal resources within the vicinity of the site; and</u> <u>Sites for the eco-communities will be identified through the Site Allocations DPD.</u> 3. Outside of <u>Other than at</u> the main towns identified in this Policy, housing <u>and employment</u> growth will be delivered <u>for the remainder of the Community Network Area housing requirement</u> through; • identification of sites where required through Neighbourhood Plans; • affordable housing led schemes <u>rounding off of settlements and use of previously developed land within or immediately adjoining that settlement of a scale appropriate to its size and role;</u> • <u>infill schemes that fill a small gap in an otherwise continuous built frontage and do not physically extend the settlement into the open countryside. Proposals should consider the significance or importance that large gaps can make to the setting of settlements and ensure that this would not be diminished;</u> • <u>rural exception sites</u> under Policy 9 defined below.

Main Modifications	Page	Policy/ Supporting Text	Proposed modification
--------------------	------	----------------------------	-----------------------

			<u>4. Within the AONB or its setting, development will be supported where it is in accordance with the other policies of this Plan and can demonstrate that it conserves and enhances the landscape character and natural beauty of the AONB.</u> Infill for the purposes of residential development should be proportionate to the scale of the settlement and within its boundaries, respect the settlement and landscape character of the locality and not physically extend the settlement. It must clearly relate to part of an established settlement and not isolated dwellings. Particular preference will be given to sites on previously developed land. <i>(Amendment to published change at the beginning of paragraph 3 for clarity and consistency.)</i>

27	19	1.43	Amend paragraph 1.43 to read: Shopping is a key component and function of many places and forms a major part of successful towns. Town centres remain our focus for retail and community facilities in line with national policy. <u>Proposals should support Truro’s wider role as an economic and service centre, and maintain its role at the top of the retail hierarchy and as an alternative to major centres outside Cornwall.</u>																																																												

Main Modifications	Page	Policy/ Supporting Text	Proposed modification
28	19	1.44	Amend paragraph 1.44 to read: <u>Where edge of centre and out of town retail developments are proposed, a</u> sequential test will be required to assess potential alternatives in the town centre area. edge of centre and out of town retail developments. <u>in accordance with national policy. If required, a</u> threshold for <u>retail</u> impact testing will be identified for Cornwall's main towns in the Allocations Development Plan Document. and Until this is produced, the National Planning Policy Framework shall provide the measure.
29	19	1.44	Insert new paragraph after 1.44 to read: <u>Town centre boundaries, primary shopping areas and primary shopping frontages are defined on the proposals map inserts (on which the last category are noted as primary "retail" frontages). The Council has not defined secondary shopping frontages, but the primary shopping areas have been defined to include appropriate secondary frontages.</u>
30	20	1.47	<i>Not needed for soundness</i>
31	20	Policy 4	Amend Policy 4 to read: Policy 4: Shopping, services and community facilities <u>The Council will seek to maintain the retail hierarchy by supporting centres to provide for the needs of their community. Allocations Development Plan Documents and Neighbourhood Plans should ensure that the retail floorspace capacity targets can be delivered by taking account of the market delivery and land available for this.</u> <u>In considering the need for further retail provision Plans should review the level, nature and quality of existing commitments' ability to meet the space requirements set out in Table 2.</u> 1. Development will be permitted where it supports the vitality and viability of town centres, <u>investment</u>

Main Modifications	Page	Policy/ Supporting Text	Proposed modification
			<u>within them</u>, and maintains and enhances a good and appropriate range of shops, services and community facilities. Retail and other main town centre uses outside defined town centres (with the exception of small scale rural development) <u>must demonstrate the application of a sequential approach to site selection in accordance with national policy and where the proposals exceed the applicable threshold</u>, show there is no significant adverse impact on the viability and vitality of, <u>and investment within</u>, the existing centres. and demonstrate the application of a sequential approach to site selection or demonstrate an overriding strategic role for the economic and social sustainability of Cornwall. Residential development, such as accommodation for the elderly is supported in town centres where it supports the vitality and viability of town centres. <u>2. Proposals for shops, financial and professional services, and food and drink establishments (Use Class A) will be permitted within the defined town centre primary shopping areas, where:</u> <u>i) They do not individually, or together with other proposals, undermine the vitality or viability of the town centre; and</u> <u>ii) The proposal is consistent with the scale and function of the town centre; and</u> <u>iii) Consideration is given to ensuring that proposals do not eliminate separate access arrangements to the upper floors, which could be used for residential or alternative uses.</u> <u>3. Within the primary retail frontages identified on the proposals map, the change of use of ground floor Class A1 shop premises to Class A2, A3, A4 and A5 will only be permitted where the proposed use would not undermine the retail function of the town centre and maintain and enhance its vitality and viability. The determination of each application will have regard to the following factors:</u> <u>i) The location and prominence of the premises;</u> <u>ii) The size and width of the premises;</u> <u>iii) The number and distribution of other existing and committed non-A1 uses within the defined primary retail frontage (including any premises subject to current Permitted Development changes</u>

Main Modifications	Page	Policy/ Supporting Text	Proposed modification
			of use); iv) The nature and character of the proposed use; and v) The design of the shop-front. <u>The above considerations will normally be sufficient to assess applications for a change of use. Premises do not have to be vacant or marketed for a change of use to be acceptable. Nevertheless, the length of any vacancy of the premises and evidence of unsuccessful marketing for the current permitted use may be evidence of a lack of demand and changing retail patterns.</u> 2- 4. Community facilities and village local shops should, wherever possible, be retained and new ones supported. Loss of provision will only be acceptable where the proposal shows: a. no need for the facility or service; b. it is not viable; or c. adequate facilities or services exist or the service can be are being re-provided in locations that are similarly accessible by walking, cycling or public transport. <i>(Amendment to published change re vacancy and marketing.)</i>
32	20	Text after Policy 4	New paragraph after Policy 4 to read: <u>As part of the evidence base for the Local Plan, the Council appointed consultants to calculate the capacity for convenience and comparison goods retail provision in each town for the Plan period. This takes into account all committed floorspace for these categories at the time of completing the capacity forecasts in March 2015. A negative figure indicates that the anticipated quantitative floorspace capacity for the town has been exceeded. The Council recognises that this data represents a 'snapshot' of capacity at the time of preparing the forecasts and was based on the housing requirement and distribution in the Plan as originally submitted for Examination. It should be read in the context that some of that committed floorspace may not be delivered (due to changing retail patterns), or remain vacant, and further permissions granted after the completion of the forecasts will both need to be factored into the floorspace capacity for the relevant town(s). The</u>

Main Modifications	Page	Policy/ Supporting Text	Proposed modification
--------------------	------	----------------------------	-----------------------

			<u>capacity calculations will be monitored against permissions, completions and vacancies throughout the plan period. The capacity forecasts are based on existing centres retaining their current market share (or adapting to the consequences of unimplemented permissions known at that time in other locations). The plan does not propose any change to the existing market share of centres within Cornwall.</u>

			Cornwall Retail Study Update March 2015																																																																																										
33A		After 2.1	2.1 In order to make the economy competitive it is important to remove unnecessary barriers. The Plan seeks																																																																																										

Main Modifications	Page	Policy/ Supporting Text	Proposed modification
			to provide a positive policy framework, which supports jobs, business and investment with a focus on sustaining a range of local businesses. It sets a framework to encourage both large and small scale opportunities throughout Cornwall in appropriate locations. Proposals should Decisions will support and protect the sustainability and expansion of existing businesses and the growth of new sectors to strengthen the economy particularly where this provides full time jobs and, wherever possible, leads to a rise in the average wage in Cornwall. <u>The Plan provides targets for the provision of employment space to ensure the continued availability of business space. The allocation and safeguarding of employment space to meet this need should be made through the Allocations DPD and/or Neighbourhood Plans. The employment space targets are as floor space to provide the most useful proxy to jobs but also allow for locally defined densities and character of business space through the Allocations DPD or Neighbourhood Plans.</u>
34	20	2.2	Amend paragraph 2.2 to read: To do this we need a flexible approach that ensures sufficient sites and a range of premises of the right type are available in the right places at the right time <u>to meet business needs of the economy. The economy is growing and business needs are changing rapidly. To enable the approach of smart specialisation promoted in Cornwall's respective strategies this plan is not prescriptive of the location or nature of most employment space that will be developed, providing the flexibility required to adapt to changing markets.</u>
35	20	2.3	Amend paragraph 2.3 to read: In particular this plan provides policies to support the Council and Cornwall and IOS Local Economic Partnership <u>LEP, on</u> which the council is represented, as we deliver our shared strategies for economic growth by improving productivity and structural change and better quality jobs rather than through increased levels of migration that would be inappropriate. In relation to housing, the emphasis of the strategy is to ensure the right homes in the right places to help support skills mobility and access to employment. In addition the Plan

Main Modifications	Page	Policy/ Supporting Text	Proposed modification
			underwrites complements Plymouth's significant role in relation to South East Cornwall, particularly in terms of employment and retail provision.
36	21	2.5	New paragraph after 2.5 to read: <u>Agriculture: Cornwall's agricultural sector accounts for almost 10,699 jobs and 3% of the GVA for Cornwall. Overall, it is estimated that Cornwall's agricultural sector contributes more than £244m to the gross domestic product of Cornwall. Agriculture also adds considerably to the management of our landscape, upon which tourism relies. It also supplies our food. Supporting the continued growth of the agricultural sector and supporting diversification of the industry will be critical to the Cornwall's future, long term prosperity.</u>
36a	22	2.9	2.9 Aerohub: Newquay Airport <u>with Goonhilly</u> has secured Enterprise Zone status which aims to create new jobs and growth through facilitating private sector investment within the aerospace sector by creating a new aviation / aerospace hub that will deliver high value, highly skilled permanent jobs underpinned by the development of an aviation skills centre. Four development zones each with its own Local Development Order have been identified. Whilst Cornwall's Enterprise Zone is based at the Aerohub, the impacts of this will be wide ranging – providing benefits for the economy of Newquay, Cornwall and the Isles of Scilly and beyond. This will support the economic growth of Newquay and create a stronger connection with the Clay Country eco-communities and St Austell.
37	22	2.10	Amend paragraph 2.10 to read: Where there is a clear need for employment facilities but building them is not viable, we will consider proposals that include <u>mixed use schemes where the 'other'</u> uses that <u>can</u> provide cross subsidy. Such proposals should expect to be bound to phasing conditions and obligations so that the viable uses are broadly phased to coincide with the delivery of the employment opportunities.
38	22	2.10	Insert new paragraphs after 2.10 to read:

Main Modifications	Page	Policy/ Supporting Text	Proposed modification
			<u>Strategic employment sites are employment sites with 5ha or more of built development, comprising multiple units predominately within the B use classes, plus sites that are demonstrated to deliver an important function for Cornwall's economy. In addition, a number of sites that offer the potential to attract specific sectors or end users that have specific requirements with respect to scale, location or the particular attributes of a site, e.g. Falmouth Harbour for marine uses, are also considered as strategic.</u> <u>Guidance in Policy 5 sets out how the Site Allocations DPD and Neighbourhood Plans should provide further detail on strategic and new sites in the main towns across Cornwall that will be protected and allocated in locations that can significantly enhance the existing portfolio of sites.</u> <u>These plans should also ensure that the employment space targets can be delivered taking account of the market delivery and land available for this. The following table sets out the consents against each target and C.N.A. The monitor of employment space published annually will provide the up to date position.</u> <u>In considering the need for further employment land provision, plans should review the level, nature and quality of existing commitments and their ability to meet the space requirements set out below and the needs of particular sectors. Following that of review employment space, Plans should consider how this can be met either through allocations in Plans, windfall of small sites coming forward or safeguarding of strategic sites that are larger sites or most suited to Cornwall's growing economic sectors.</u> <u>Employment sites in Cornwall remain an important part of supporting employment growth. The viability gap in providing new sites in Cornwall, and the need to ensure a range of available provision makes the loss of any site an issue which requires assessment. Such land and buildings should only be considered for alternative uses where this does not result in the loss of economic performance of the site or location, i.e. through the redevelopment for a mix of uses.</u>

40	23	Policy 5	Delete Policy 5: Jobs and Skills and replace with Policy 5: Business and tourism <u>Policy 5 Business and tourism</u> <u>1. To ensure a continued supply of appropriate business space, proposals for new employment land</u>																																																																										

Main Modifications	Page	Policy/ Supporting Text	Proposed modification
			<u>and uses should be:</u> <u>a. well integrated with our city, towns and villages; or</u> <u>b. within areas that are well served by public transport and communications infrastructure; or</u> <u>c. in the countryside and smaller rural settlements be of a scale appropriate to its location or demonstrate an overriding locational and business need to be in that location such as farm diversification; or</u> <u>d. an extension to an existing business where re-location would be impractical or not viable.</u> <u>2. Proposals that would result in the loss of business space must:</u> <u>i. demonstrate there is no market demand through active and continued marketing for at least a period of 9 months; or</u> <u>ii. result in the provision of better quality employment space allowing for mixed use; or</u> <u>iii. be necessary to meet a clear need for community facilities; or</u> <u>iii. be unsuitable to continue as business use due to environmental considerations.</u> <u>3. The development of new or upgrading of existing tourism facilities through the enhancement of existing or provision of new, high quality sustainable tourism facilities, attractions and accommodation will be supported where they would be of an appropriate scale to their location and to their accessibility by a range of transport modes. Proposals should provide a well balanced mix of economic, social and environmental benefits.</u> <u>4. Site Allocations Development Plan Documents and Neighbourhood Plans should identify new land, and safeguard appropriate existing land, necessary for the delivery of the economic strategies for Cornwall. These allocations should be based on an assessment that considers the ability of the quantity, nature and quality of existing space and any commitments to meet the space requirements set out in Policy 2a and the needs of particular sectors.</u>

Main Modifications	Page	Policy/ Supporting Text	Proposed modification
			<u>The assessment should:</u> <u>assess the ability of vacant sites and buildings identified in the Employment Land Review to meet that need;</u> <u>consider if any shortfall can be reasonably met through windfall sites coming forward;</u> <u>Identify sites for further employment space, where necessary, to address the targets set out in the policy 2a; and</u> <u>Identify existing employment land and/or buildings that are considered to be of strategic, and where appropriate, local significance for safeguarding.</u> <u>Strategic Employment Sites or allocations are sites of 5ha or more, including those comprising multiple units predominately within the B use classes, or sites that offer the potential to attract particular sectors or end users that have specific requirements with respect to scale, location or the particular attributes of a site, e.g. for marine uses/ aerospace/ telecommunications related to the smart specialisations set out in the local plan strategy.</u> <u>Locally Significant Employment Sites are sites which make a significant contribution in terms of space or job provision within a Neighbourhood Plan area.</u> <i>(Minor amendment of published change – paragraph 4 "<u>appropriate existing land</u>".)</i>
41	24	2.13	Amend paragraph 2.13 to read: From this the Plan sets out a framework to identify the likely need and demand for a 20 year target of about 47,500 52,500 homes. This includes sites already committed which at April 2013 2016 totalled around 20,000 21,800 with planning permission or under construction and around 8,700 14,000 completions.
42	24	2.14	Amend paragraph 2.14 to read: The pace that homes are built will vary depending on the economy and viability. Migration rates, a major

Main Modifications	Page	Policy/ Supporting Text	Proposed modification
			component in housing need, are closely linked to levels of economic growth and influence demand for housing in the wider housing market. During the recent current economic downturn a slower rate of housing growth is <u>was experienced in the first few years of the Plan period. As the housing market now appears to be entering a period of recovery, it is</u> anticipated in the earlier period of the plan with recovery in later that <u>building rates will continue to increase and that this will enable the shortfall from the first few years to be met in the following five years.</u> However, this is not an exact science. Therefore it will be necessary to have a clear understanding of the rates of delivery and monitor progress closely and amend our Plan when necessary over the Plan period to respond to changes in the economy. This will involve a 'plan, monitor and manage' approach to the future growth of Cornwall.
43	24	2.15	Amend paragraph 2.15 to read: Good quality housing is vital for the physical and mental wellbeing of individuals and the wider community. It is important that our housing market is appropriate to meet the needs of the community. These needs include not only those of affordability <u>and the desire to build our own homes,</u> but also meeting the challenges presented by our aging <u>and changing</u> population. This involves both the consideration of design and layout of new dwellings for the future needs of particular groups but also the provision of specialist housing such as extra care accommodation where needed. Major developments should consider these needs in developing their proposals.
44	24	2.15	Insert new paragraphs after 2.15 to read: <u>The Council's housing evidence base includes the Strategic Housing Market Needs Assessment (SHMNA) and together with the proposed Site Allocations Development Plan Document (DPD) and existing and emerging Neighbourhood Plans, will provide the information and/or tools necessary to understand the types of housing need and demands specific to local communities in Cornwall.</u> <u>The following paragraphs identify the types of households, based on existing evidence, which should be considered when planning new housing development in order to meet needs relevant to specific local circumstances. This list is not exclusive as there may also be other types of households that</u>

Main Modifications	Page	Policy/ Supporting Text	Proposed modification
			<u>should be considered to be in need of housing in certain areas. In all instances an appropriate mix of housing types, sizes, prices and tenures should form the basis of any new development proposal, and it is anticipated that no one housing type will dominate a scheme unless it is specifically designed to do so, e.g. a scheme specifically intended to deliver student accommodation. Innovative and flexible design will help in meeting the diverse needs and aspirations of society today.</u> <u>Housing for older people: According to the SHMNA the number of people aged 65 or more in Cornwall will increase by 43% over the Plan period and includes a doubling in the numbers of those aged 85 and over. This significant increase in older people means that the Council needs to consider how it will tackle the strategic challenge of ensuring there is a range of appropriate housing provision for this particular group in the future. Larger schemes will be expected to include a proportion of accessible homes as part of the overall housing mix, and should also consider the provision of specialist housing for older people.</u> <u>The Private Rented Sector and Student Accommodation: The proportion of households privately renting accommodation has increased significantly over the last decade in Cornwall. The quality of some private rented accommodation can be an issue. Privately renting accommodation may be the only option available to some groups in the community, such as single young people and students, and this can sometimes lead to there being a high concentration of Houses in Multiple Occupation (HMOs) in certain areas of Cornwall, which can lead to other associated problems. Where there are particularly high instances of HMOs, mixed communities are not being sustained. New developments can offer opportunities to enhance the provision of good quality, affordable private rented accommodation of a size, tenure and price that will appeal to all residents of the local community, and help rebalance housing stock.</u> <u>The Local Plan recognises the importance of supporting the growth of further and higher education in Cornwall as a significant contributor to the local economy and labour market. This has led to tension in specific areas between the needs of the student population and those of local households. In order to help redress this imbalance and provide for existing and future need, the provision of specialised student accommodation in appropriate and sustainable locations, in addition to meeting</u>

Main Modifications	Page	Policy/ Supporting Text	Proposed modification
			<u>the needs of the local resident population, will be supported. In Falmouth and Penryn towns, and Mabe in particular, whilst there are limited opportunities every effort should be made to deliver good quality, managed accommodation within the towns and in locations close to the university. Such provision will help to reduce the reliance on existing housing stock in the community for use by students.</u> <u>Households with specific needs: The Council's SHMNA and housing evidence base identifies the need for specialist housing to meet community needs including those with physical disabilities, learning difficulties or a mental health problem. Larger schemes will be expected to include a proportion of accessible homes as part of the overall housing mix and should consider the provision of specialist housing for people with special needs.</u> <u>People wishing to build their homes: The Government is keen to help individuals commission their own homes either through self-build or custom build. Such schemes can be an effective way to increase the mix of housing types and tenures, and have the potential to increase the delivery of innovative and highly sustainable developments in a cost effective manner. Community Land Trusts can provide an opportunity for affordable self-build schemes. In addition, the Council will work with developers on sites where the delivery of serviced plots for affordable housing are negotiated to enable some of these to be offered for self-build where a need is identified.</u> <u>Single person and family households: The SHMNA shows a significant increase in single person and couple households driven in the main by the increasing number of older person households, and concludes, particularly in relation to affordable housing, that there will be a high demand for smaller one to two bed properties. The delivery of an increased number of smaller units will allow downsizing to take place, freeing up larger homes in the Plan area.</u>
45	24	2.16	Amend paragraph 2.16 to read: Meeting high levels of housing need, evidenced through the Strategic Housing Market Needs Assessment and

Main Modifications	Page	Policy/ Supporting Text	Proposed modification
			the Cornwall Housing Register, particularly need for affordable housing, is a key objective for the Council. Delivery of the new housing development of the right quantity and type is fundamental to achieving sustainable communities. This will involve ensuring a range of tenures and dwelling types in new developments. <u>A Housing Mix Supplementary Planning Document will be prepared to give further guidance on how this policy should be addressed.</u>
46	25	Policy 6	Amend Policy 6 to read: Policy 6: Housing mix New housing developments <u>of 10 dwellings or more</u> will be required <u>should</u> include an appropriate mix of house sizes, type, price and tenure to address identified needs and market demand and to support mixed communities. based on the following principles <u>Proposals should seek to:</u> 1. Proposals of 10 or more dwellings should seek to provide a range of • Address affordable housing need and housing demand <u>for both affordable, market housing and starter homes including self-build and custom-build housing; and</u> • <u>Use local evidence of the need and demand for specific types, tenures and sizes of housing to</u> contribute to the diversity of housing in the local area and help to redress any housing imbalance that exists; <u>and</u> • Responding to the requirements of a changing population <u>and of particular groups in the community, by increasing the supply of accessible and specialist housing (including ground floor flats, flats with lifts and bungalow accommodation) which is able to meet people's needs throughout their</u>

Main Modifications	Page	Policy/ Supporting Text	Proposed modification
			<u>lifetimes based on locally derived evidence of need and demand.</u> And • Employ imaginative design solutions. <u>2. On sites of 200 dwellings or more, additional specialised housing (including extra care housing) should be considered where demand exists to meet defined specialist needs.</u>
47	25	2.17	Amend paragraph 2.17 to read: Housing in the countryside: The plan seeks to address the needs of rural areas, looking in particular at shared solutions to the provision of services and facilities locally as well as options for improving access to larger centres. It is important that these rural areas can continue to thrive both economically and socially. The Plan will not be defining settlement boundaries around towns and villages but development should however be limited to infill within the built area, not physically extending these settlements or through affordable housing led schemes (i.e. exceptions where an element of market housing is allowed to support their delivery) The focus <u>for rural settlements</u> is upon <u>to meet</u> local need and <u>while</u> reflecting and respecting the character of Cornwall's settlements. Neighbourhood Plans may, if they feel it appropriate, look to identify specific settlement boundaries consistent with this approach.
48	25	2.18	Amend paragraph 2.18 to read: <u>Open countryside is defined as the area outside of the physical boundaries of existing settlements (where they have a clear form and shape).</u> The Plan seeks to <u>ensure that development occurs in the most sustainable locations in order to</u> protect the open countryside from inappropriate development. <u>Supporting text to policy 3 sets out the Council's approach to sustainable development. It clarifies that the majority of development will be provided in settlements with a range of facilities.</u> However, it is recognised that there will <u>may</u> be a need for some housing in existing settlements not listed <u>in the countryside. In these locations,</u> we <u>will</u> seek to provide a focus on efficient use of existing properties and

Main Modifications	Page	Policy/ Supporting Text	Proposed modification
			buildings to meet needs and set out other exceptions to <u>for</u> development in the countryside. <u>The appropriateness of buildings for conversion will depend on their scale and method of construction, structural soundness and the ability to convert the building without the necessity of substantial demolition or substantial rebuilding operations. The conversion of large portal framed buildings will rarely be appropriate.</u>
49	25	2.18	Insert new paragraphs after 2.18 to read: <u>The replacement of existing lawful dwellings will be supported, but these should be broadly comparable to the size, scale and bulk of the dwelling being replaced, and not impact negatively on the character of the surrounding area. Part of the defining character of the Cornish countryside is the range of traditional vernacular buildings in the landscape, although a number of these have been lost through replacement dwellings. Consideration should always be given to retaining or incorporating traditionally built and structurally sound dwellings into replacement dwellings. Subdivision of the residential elements of dwellings, i.e. excluding ancillary buildings such as annexes and garages, to form additional units, can also help to meet the need for dwellings, but applications will be expected to demonstrate an appropriate level of space and amenity for the new and existing occupants.</u> <u>For the purposes of this policy to both residential sub-division and conversion, buildings should have been erected and used for the purpose for which they had a lawful use for at least ten years before they will be considered for conversion in line with this policy. This is to avoid deliberate circumvention of policies designed to limit new housing in the countryside.</u>
50	25	2.19	Amend paragraph 2.19 to read: Development, particularly providing homes and employment that meets needs arising from these rural

Main Modifications	Page	Policy/ Supporting Text	Proposed modification
			communities are encouraged <u>activities that require an essential, functional presence in the rural environment will be supported.</u>
51	25	Policy 7	Amend Policy 7 to read: Policy 7: Housing in the countryside <u>The development of new homes in the open countryside will only be permitted where there are special circumstances. New dwellings will be restricted to:</u> Additional accommodation to meet needs in the open countryside will be focused of the use of existing lawful residential or non-residential buildings ten years old or greater through either: 1. Replacement dwellings (excluding caravans and chalets) proportionate <u>broadly comparable to the size, scale and bulk of the dwelling being replaced and</u> of an appropriate scale and character <u>to their location;</u> or <u>2. the</u> subdivision of existing residential dwellings; or <u>3. Reuse of</u> suitably constructed redundant, or disused <u>or historic</u> buildings which that are considered appropriate to retain and would lead to an enhancement to the immediate setting. <u>The building to be converted should have an existing lawful residential or non-residential use and be ten years old or greater; or</u> In addition: <u>4 3. Accommodation Temporary accommodation for workers (including seasonal migrant workers), to support established and viable rural businesses where there is an essential need for a presence on the holding, but no other suitable accommodation is available and it would be</u> of a construction suitable

Main Modifications	Page	Policy/ Supporting Text	Proposed modification
			for its purpose and duration, for workers (including seasonal migrant workers) and where no other suitable accommodation is available, to support established and viable rural businesses and; or <u>5 4. Dwellings for Full time agricultural and forestry and other rural occupation workers will be allowed where there is up to date evidence of an essential functional need of the business for the occupier to live in that specific location.</u> Appropriate for these needs and supported by an up to date evidence of need.
52	26	2.21	Amend paragraph 2.21 to read: To inform our affordable housing policies and negotiations, as well as the Community Infrastructure Levy, we use our viability study. It defines different value and viability areas and the map (Figure 2) gives a broad indication of the different house price value zones areas for housing. More detailed information will be is included in the Cornwall Affordable Housing a Supplementary Planning Document and will be reviewed periodically reflecting the importance of changes in issues such as house prices, both upwards and downwards, to deliverability.
52A		2.21	Insert after paragraph 2.21 new paragraphs: <u>The Housing and Planning Act (2016) has introduced the requirement for Local Authorities to promote the supply of starter homes. The Act sets out a definition of starter homes which will be clarified by further regulation. At this time starter homes are homes provided to meet the needs of qualifying households. The starter home will be provided at a discount of at least 20% of market value up to a maximum price of £250,000 and there will be further restrictions on their subsequent sale or letting. For the purposes of S106 agreements starter homes are defined as affordable housing under S159 of the Housing and Planning Act (2016).</u> <u>Starter homes exception schemes will not be subject to Community Infrastructure Levy payments or be required to provide affordable housing.</u>

Main Modifications	Page	Policy/ Supporting Text	Proposed modification
			<u>Rural exception sites are not required to provide starter homes and the Council will not accept starter homes as part of the affordable housing provision on site required by Policy 9. Consideration will however be given to the inclusion of a proportion of starter homes as part of the minority market housing share allowed by the policy where necessary to ensure the viability of the scheme.</u>
53	26	2.24	Delete paragraph 2.24:
54	27	2.26	Amend paragraph 2.26 to read: Contributions to affordable housing are not limited to housing development, where viable and appropriate, non-residential development must contribute. Some mixed use developments will also be expected to contribute to the provision of affordable housing. This may be limited, but major development for employment or an institutional use (hospital or educational establishments for example) could have a significant impact on the local housing market and require mitigation through on or off site provision. Where occupancy conditions are lifted on holiday accommodation we will seek community benefits such as affordable housing and infrastructure improvements to ensure consistency with residential use.
55	27	2.27	Amend paragraph 2.27 to read: The need for affordable housing occurs throughout Cornwall. It is recognised that delivery of this is dependent upon the viability of developments coming forward. The Plan's policies therefore have two five broad targets, one for the higher house price areas, which have a particular focus in coastal locations, and a second for the remainder <u>reflecting the different house price value areas</u> of Cornwall. This target includes a range of places with different markets and the policy will therefore require a degree of flexibility in its operation. <u>Where a development would cross two value zones (such as an extension to a settlement), the Council will seek to negotiate a percentage of affordable housing in accordance with value zone that best</u>

Main Modifications	Page	Policy/ Supporting Text	Proposed modification
			<u>reflects the sales values likely to be achieved by the development. The targets are</u> This is also directly related to the levels of Community Infrastructure Levy to be applied in the different value zones and ensure that the policy can adjust often to <u>often</u> very local prevailing market conditions.
56	27	2.28	Amend paragraph 2.28 to read: Within the more viable areas identified in Our strategic viability assessment it is anticipated that a target provision is typically based on the tenure split of 70% affordable rent and 30% intermediate housing <u>and found that this</u> should normally be viable. <u>In some circumstances, where the viability is challenging it is anticipated that the mix of housing may need to vary to achieve this level of affordable housing, or that the level may be less than the affordable target depending upon the viability of each site.</u> Elsewhere it is anticipated that the mix of housing may need to vary to achieve this level of affordable housing or that the level will be less than the target of 40% depending upon the viability of each site. In the towns identified as having the most challenges in terms of viability, it is likely that public subsidy will be required if these targets are to become a reality.
57	27	Fig 2	Insert new amended House Value Zones map

Main Modifications	Page	Policy/ Supporting Text	Proposed modification
			
58	27	Fig 2	Add beneath Fig 2: A full list of towns and Parishes in each zone is provided in the Appendix to the Plan.
59	27	2.29	Insert new paragraphs after 2.29: <u>When applying the thresholds in Policy 8, the Council will consider the capacity of the whole site, not simply that area which is the subject of a proposal. It is not acceptable to attempt to deliberately circumvent the site size threshold for example by a phased development or the subdivision of a larger site (or indeed to lower artificially the number of units proposed).</u>

Main Modifications	Page	Policy/ Supporting Text	Proposed modification										
			<u>In cases where a single site is split into more than one, the Council will consider the capacity and suitability of the entire developable area for the purpose of the thresholds of Policy 8. Where the density or number of units in a proposal is lower than might reasonably be expected (taking into account density of development surrounding the site) and where otherwise, the number of units would take the site above the relevant threshold, the Council will treat the site as being above the threshold.</u> <u>The Affordable Housing SPD also provides guidance on viability and the circumstances under which contributions may be varied or reviewed in accordance with Policy 11.</u> <u>Where off-site financial contributions are sought, this will be in accordance with the requirements of the guidance set out in the Affordable Housing SPD. In designated rural areas and AONBs financial contributions for affordable housing from developments of 6-10 units will be collected on completion of the development.</u> <i>(Amendment to last sentence of published change.)</i>										
59A			After text added after 2.29 by change 25A add the following text and table: <u>Table 3a below summarises the need and demand for affordable housing in Cornwall and will provide the basis for the Affordable Housing Trajectory:</u> <table><tr><th colspan="2"><u>Table 3a – affordable housing need and delivery summary</u></th></tr><tr><th colspan="2"><u>Affordable housing need</u></th></tr><tr><td><u>'Backlog' housing need (annually 926 – cleared in first 5 years)</u></td><td><u>4,630</u></td></tr><tr><td><u>Net newly arising need (annually 1,314)</u></td><td><u>26,280</u></td></tr><tr><td><u>Total affordable housing need</u></td><td><u>30,910</u></td></tr></table>	<u>Table 3a – affordable housing need and delivery summary</u>		<u>Affordable housing need</u>		<u>'Backlog' housing need (annually 926 – cleared in first 5 years)</u>	<u>4,630</u>	<u>Net newly arising need (annually 1,314)</u>	<u>26,280</u>	<u>Total affordable housing need</u>	<u>30,910</u>

<u>Affordable housing delivery (52,500)</u>	
<u>Completions and commitments</u>	<u>8,525</u>
<u>Uplift delivered 2010-2015</u>	<u>336</u>
<u>Anticipated delivery of the remainder</u>	<u>3,445</u>
<u>Eco communities</u>	<u>360</u>
<u>Anticipated uplift delivery 2015-2030</u>	<u>5,170</u>
<u>Total Affordable Delivery</u>	<u>17,836</u>
<u>Achievement rate</u>	<u>58%</u>
<u>Achievement rate (less backlog)</u>	<u>68%</u>

The Affordable Housing Trajectory will be published on an annual basis and will monitor progress in the delivery of affordable homes in Cornwall.

There are two main sources through which affordable homes are anticipated to be delivered in Cornwall.

- 1. Affordable homes negotiated through the planning process. Affordable homes will be negotiated on all eligible sites that are submitted to the Council for planning approval using the relevant targets from Policies 8 of the Cornwall Local Plan. Sites providing affordable homes through the planning process included in the Affordable Housing Trajectory will include:**
 - Those that have already been completed or are subject to current planning approval;**
 - Sites that are allocated through the Local Plan and Neighbourhood Plans (where applicable);**
 - Sites that the Council own and are actively promoting with chosen developers and which could deliver a higher proportion of affordable homes than would usually be expected;**
 - An expectation that some affordable homes will be delivered from windfall sites; and**
- 2. Affordable homes delivered through Council and other funding programmes in addition to those delivered through the normal planning route. Sites providing affordable homes through alternative routes and included in the Affordable Housing Trajectory will include:**
 - The conversion of open market units to affordable homes through the use of S106**

Main Modifications	Page	Policy/ Supporting Text	Proposed modification
			<u>negotiated offsite contributions and other funding sources;</u> • <u>Funding of additional affordable homes through external programmes such as the Homes & Community Agency's Affordable Housing Programme;</u> • <u>Rural exception sites which do not form part of the windfall allowance and have proved a consistent source of affordable housing delivery in Cornwall;</u> • <u>Funding for affordable housing schemes through Cornwall Council's own funding programmes which supports the Council's long term objective of providing affordable homes for local people.</u>
60	28	Policy 8	Amend Policy 8 to read: Policy 8: Affordable housing All new housing schemes within the plan area, including mixed use schemes, on sites where there is a net increase of <u>more than 10 dwellings or where dwellings would have a combined gross floor space more than 1,000 square metres</u> two units or more or 0.2 of a hectare or greater, developments (not including replacement dwellings) must contribute towards meeting affordable housing need. <u>In designated rural areas and Areas of Outstanding Natural Beauty, the threshold will be more than 5 dwellings. For developments of between 6 and 10 dwellings in such areas a financial contribution in lieu of on-site provision of affordable housing will be sought per unit of affordable housing that would have been provided.</u> <u>Subject to considerations in policy 11,</u> developments will <u>should</u> aim to provide the target levels of affordable housing as set out below. Contributions will be in accordance with the requirements set out in the Affordable Housing SPD. The SPD provides guidance on viability and the circumstances under which contributions may be varied or reviewed. The following provision on site will be sought:

Main Modifications	Page	Policy/ Supporting Text	Proposed modification
			<u>50% in Zone 1</u> <u>40% in Zone 2</u> <u>35% in Zone 3</u> <u>30% in Zone 4</u> <u>25% in Zone 5</u> 50% in Zone 1 and 2 including the town of St Ives; 40% in Zones 3, 4 and 5 including the towns of Falmouth / Penryn; Truro; Bodmin; Bude; Saltash; Hayle; Launceston; St Austell; Wadebridge; Penzance; Camborne /Pool/Redruth; Helston and Liskeard. The mix of affordable housing products will vary through negotiation and shall be provided taking into account the Council's evidence of housing need and any viability constraints identified, reflecting the different markets in different value zones. However, the target provision for affordable housing <u>(other than starter homes)</u> is typically in the following tenure proportions: - 70% rented homes owned and or managed by a bona fide affordable housing provider as affordable housing, provided that the rent level (inclusive of any relevant service charges) does not exceed the local housing allowance - 30% intermediate housing for rent or sale, provided that the homes are available at first and subsequent occupation at a price which is affordable to a typical local household, taking into account the estimated purchasing power in such households. <u>As and when by the Housing and Planning Act (2016) and subsequent Regulations, the provision of affordable housing will include an element of starter homes to meet the needs of qualifying households.</u> Planning obligations will be used to ensure that affordable housing is provided and <u>(where permissible)</u> retained for eligible local households.

Main Modifications	Page	Policy/ Supporting Text	Proposed modification
			There may be some circumstances, particularly on sites of 5 dwellings or less, where it is more economic or sustainable to seek a financial contribution towards the provision of affordable housing on an alternative site. Any off site contributions will must be broadly equivalent in value to on site provision and secured to support the delivery of affordable housing through a planning obligation. The Council may in some circumstances, subject to viability, also seek a contribution towards affordable housing from a non housing development judged to have a significant and demonstrable impact on the local housing market. A financial or other contribution will be sought from proposals to remove holiday occupancy restrictions on existing dwellings using the thresholds set out above where there is evidence of need and where development would otherwise have been provided on site for community infrastructure including affordable housing. <u>Where the splitting of a site would result in two or more sites that are physically adjoined, the Council will consider the capacity and suitability of the entire developable area for the purpose of determining whether it falls above or below the affordable housing thresholds. This includes situations where the density or number of units in a proposal is lower than might reasonably be expected.</u> <i>(Minor amendments to the published change in 3rd paragraph and in references to starter homes.)</i>
61	29	2.30	<i>Not needed for soundness.</i>
62	29	2.31	<i>Not needed for soundness.</i>
63	29	2.32	Amend paragraph 2.32 to read: Normally we would expect proposals that come forward as Rural Exception sites affordable housing led schemes (commonly described as exception schemes where market housing is required to support delivery) to

Main Modifications	Page	Policy/ Supporting Text	Proposed modification
			<u>comprise of dwellings that are</u> all restricted for occupation as local needs housing in perpetuity. However, we accept that <u>in an environment of</u> limited public subsidy, and <u>with</u> the need to provide a wider range of homes in some communities, can provide <u>there can be</u> justification for an element of normal market housing to be included in proposals to deliver <u>support delivery of</u> the required mix of housing for local needs. <u>Such schemes should work from a base position of 100% affordable housing, and decrease this proportion only with the needs of achieving viability for the scheme down to a minimum of 50% affordable housing as set out in the policy. Guidance to help develop proposals is contained within the Affordable Housing as detailed in the SPD. In areas of higher viability, the expectation will be for schemes to achieve a considerably higher proportion of affordable housing than 50%.</u>
64	29	2.33	Amend paragraph 2.33 to read: We will therefore consider proposals to <u>that</u> include an element of market housing on these types of sites where it can be shown to the Council's satisfaction that a mixed tenure scheme is essential to the delivery of the affordable housing.
65	29	2.34	Amend paragraph 2.34 to read: Inclusion of market housing may also remove the need for all or significant levels of public subsidy and ensuring <u>ensure that</u> affordable homes for sale are delivered at the lowest possible price <u>appropriate level set out in the Affordable Housing SPD.</u>
66	29	2.35	Amend paragraph 2.35 to read: However, the Council would also need to be satisfied that the development had community support and reflected <u>reflects</u> local need in terms of scale, dwelling type and tenure mix <u>in accordance with Policy 6 of this plan.</u>

Main Modifications	Page	Policy/ Supporting Text	Proposed modification
67	29	2.36	<i>Not needed for soundness.</i>
68	29	2.36	<i>Not needed for soundness.</i>
69	30	Policy 9	Amend Policy 9 to read: Policy 9: Rural Exceptions Sites Affordable housing led schemes Development proposals on sites outside of but adjacent to the existing built up areas in of smaller towns, villages and hamlets, whose primary purpose is to provide affordable housing to meet local needs will be supported where they are clearly affordable housing led and would be well related to the physical form of the settlement and appropriate in scale, character and appearance. Proposals should be developed in accordance with guidance provided in the Affordable Housing SPD. The number, type, size and tenure of the affordable dwellings should reflect identified local needs as evidenced through the Cornwall housing register or any specific local surveys completed using an approved methodology. as detailed in the SPD. <u>The purpose of such developments must be primarily to provide affordable housing.</u> While the purpose of such developments should be to provide affordable local needs housing, The inclusion of market housing in such proposals will <u>only</u> be supported where; <u>the Council is satisfied it is essential for the successful delivery of the development based on detailed financial appraisal (For example to fund abnormal development costs or to deliver a balanced, sustainable community).</u> i) It can demonstrate it meets a local need for housing; and ii) The Council is satisfied it is essential for the successful delivery of the development (For example to fund abnormal development costs or to deliver a balanced, sustainable community); and iii) It has the support of the local community measured by the level of support received from the parish council,

Main Modifications	Page	Policy/ Supporting Text	Proposed modification
			a positive outcome from a local referendum or where there is evidence that it is a community led proposal; and iv) Market housing does must not represent more than 50% of the homes or 50% of the land take, excluding infrastructure and services. The Council will secure the first and future occupation of the affordable homes to those with a housing need and local connection to the settlement or parish in line with the Council's adopted local connection policies.
70	30	2.37	Delete paragraph 2.37:
71	31	Policy 10	Delete Policy 10:
72	31	2.40	New paragraph after 2.40 to read: <u>The policy sets out a number of alternative delivery mechanisms that will be explored as a way of ensuring that the amount of affordable housing gain can be maximised on sites that may struggle to provide the requirements of Policy 8 due to an extraordinary circumstance. Additional guidance to support this process is provided within the Council's Affordable Housing SPD.</u>
73	31	Policy 11	Amend Policy 11 to read: Policy 11: Managing viability Where the Council is satisfied through the submission of appropriate evidence that the proposal cannot deliver the full quota of affordable housing without affecting the viability of the scheme to such an extent that it cannot proceed, it will <u>consider whether the following approaches would assist in</u> adopt the following sequential approach with the aim of securing the maximum achievable contribution to affordable housing; 1. The alteration of the housing mix to reduce scheme costs: <u>Securing public subsidy or other commuted sums, recognising that this may result in further changes to scheme mix and the delivery timescales;</u>

Main Modifications	Page	Policy/ Supporting Text	Proposed modification
			2. Securing public subsidy or other commuted sums, recognising that this may result in further changes to scheme mix and the delivery timescales. 3. The alteration of <u>Flexibility in</u> the affordable housing tenure, <u>type and size</u> mix <u>and/or phasing required</u> within the development; <u>3. The transfer of free serviced land / plots to the Council reflecting the number of affordable dwellings that would normally be expected for that development;</u> <u>4. A negotiated reduced percentage of on-site affordable provision;</u> 4 <u>5.</u> Consideration of an off –site contribution for <u>to enable an</u> improved number or range of affordable homes <u>on another local site.</u> If, after considering the above options, only very limited or no affordable housing can be secured due to market conditions at a particular moment in the economic cycle, the Council will seek other mechanisms within a planning obligation to secure planning gain. These can include (but not be limited to) re-phasing, deferment of affordable housing obligations, options to reappraise the scheme at future phases or at commencement to allow viability to be re-assessed.
74	32	2.41	<i>Not needed for soundness.</i>
75	32	2.42	Amend paragraph 2.42 to read: Gypsies, Travellers and Travelling Showpeople have similar site requirements, so the locational requirements are addressed in the same policy. <u>The exception to this is for transit sites that should, where possible, be located within easy access to the primary or county road routes to more easily meet travelling patterns. The use of a single criterion for distance to services and facilities reflects that whether groups are resident or in transit, they require good access to shopping, health and community facilities and where possible are accessible by sustainable transport modes including walking, cycling, public transport and car sharing. It is particularly important to provide easy access to a</u>

Main Modifications	Page	Policy/ Supporting Text	Proposed modification
			<u>range of schools to ensure that children can attend school regularly, particularly on permanent sites. Reasonable access is defined as within about three miles. Although it is recognised that sites for Travelling Showpeople require greater storage and maintenance space for associated equipment, the same criteria will need to be met by all groups regarding accommodation provision.</u> <i>(Minor edit to published change – criterion.)</i>
76	32	2.43	Amend paragraph 2.43 to read: We aim to accommodate two types of provision; • ‘residential’, i.e. where there is no limit on the length of stay typically for one or more <u>single household that may include provision of static accommodation and facilities as well as</u> caravans <u>for travelling</u> to accommodate households within a single extended family; and • ‘transit’ sites designed for temporary use <u>(normally up to 3 months)</u> while travelling, <u>and are not intended for use as a permanent base for an individual household.</u>
77	32	2.44	Amend paragraph 2.44 to read: <u>The Council has commissioned a fresh assessment of the needs of Travellers - “Supporting an Assessment of the Accommodation Needs of Gypsies and Travellers in Cornwall” (November 2015). This study concluded that current demand (excluding Travelling Showpeople) exceeds supply by 139 pitches; that the need increases to 198 by 2020 through family formation; and applying a compound family formation rate of 3% for the period 2020-2030 results in a total need of 318 pitches by 2030. This final figure has been included in new policy 2a Key Targets. The evidence of the need for plots for Travelling Showpeople was limited and indicated only a small need which is covered by provision for 11 plots.</u> <u>The Council will identify and update annually in its Annual Monitoring Report a supply of specific</u>

Main Modifications	Page	Policy/ Supporting Text	Proposed modification
			<u>deliverable pitches for Gypsy and Travellers for the following 5 years. The starting point for the five year supply calculation will be the need of 198 pitches between 2015 and 2020 less any provision since 2015. The additional 120 pitches required between 2020 and 2030 will be annualised and added to the target each year to enable calculation of the five year supply target in subsequent years. Both the target for transit sites (60 pitches) and Travelling Show People plots (11 plots) between 2015 and 2030 will be annualised to provide separate five year targets for these. Existing sites that are deemed to be deliverable will then be compared to these targets to determine whether a five year supply of sites exists.</u> The residential pitch requirements are based on an update of the 2014 needs assessment (part of the Strategic Housing Market Needs Assessment that used 2012 data (SHMNA 2014)). The update uses 2014 caravan counts. Transit and showpeople requirements are based on the best available data which is provided by the Draft Revised Regional Spatial Strategy for the South West (RSS) 2008 (Incorporating The Secretary Of State's proposed Changes). <u>The Council recognises that many people in travelling communities operate a traditional lifestyle where they live and work from the same location (thereby omitting many travel to work journeys). This can help to contribute to sustainability by reducing the need to travel on a day to day basis, but needs to be balanced with a need to access services (especially schooling) and the impact that some working on site may have on nearby residential properties. All such working uses should be mitigated appropriately for residents of the sites and the surrounding area.</u>
78	32	2.45	Delete paragraph 2.45:
79	32	2.45	That paragraph 2.45 be amended to read <u>A Travelling Communities Site Allocations Development Plan Document will identify and manage the delivery of a network of sufficient, suitable and appropriately located sites to meet the accommodation requirements of the travelling communities (Gypsies and Travellers and Travelling</u>

Main Modifications	Page	Policy/ Supporting Text	Proposed modification
			<u>Show People).</u> The Council will use national policy and a criteria-based approach, as set out by Policy 12, to identify the most suitable sites across Cornwall for gypsy and traveller pitches in the proposed Development Plan Document. This will add detail to the interpretation and implementation of Policy 12 and identify specific sites to deliver the pitch requirements set out within the policy. <u>Government policy states that new traveller site development away from existing settlements should be very strictly limited. However it is recognised that there may be exceptions in small rural communities that would not normally be used as sites for the travelling community. These would need to be justified on the basis of accommodating households who, for example are either current residents or have an existing family or employment connection. Government policy also states that in rural or semi-rural locations the scale of such sites should not dominate the nearest settled community.</u>
80	32	Policy 12	Replace Policy 12 to read: <u>Policy 12 Gypsies, Travellers and Travelling Showpeople</u> <u>Proposals for new residential and transit sites and extensions to existing sites will be approved where they:</u> <u>i. Are of an appropriate size and proportionate in scale to avoid dominating any nearby settled community;</u> <u>ii. Take account of the particular and differing needs of different groups of Gypsies and Travellers;</u> <u>iii. Are located so as to ensure reasonable access (defined as within approximately three miles for transit sites and less for permanent sites) by a range of transport modes, where possible including walking, cycling, public transport and car sharing to services including GP and other health care provision, education facilities, shops and public transport;</u>

Main Modifications	Page	Policy/ Supporting Text	Proposed modification
--------------------	------	----------------------------	-----------------------

			<u>iv. Provide safe road access and sufficient space within the site for parking and turning of vehicles as well as the storage of equipment, and for transit sites, are located reasonably close to, or easily accessible from the primary or county road network;</u> <u>v. Avoid areas (including those with noise or air quality issues or are in areas at high risk of flooding) that would have a detrimental impact on the health and well-being of any travellers that may locate there;</u> <u>vi. Include sufficient residential amenity and play areas to meet the needs of residents of the site and promote healthy lifestyles; and</u> <u>vii. Provide opportunities for travellers to live and work from the same location where this can be sensitively designed to mitigate potential impacts on the site surroundings or other residential uses near to the site;</u> <u>Permission will not be granted for the redevelopment for alternatives uses of a Gypsy and Traveller site unless it can be demonstrated that an alternative site of similar or better quality and location has been provided within the plan area to meet the needs of Gypsies and Travellers.</u>

86	34	Policy 13	<i>Not needed for soundness.</i>
87	35	2.52	<i>Not needed for soundness.</i>

Main Modifications	Page	Policy/ Supporting Text	Proposed modification
88	35	2.53	Amend paragraph 2.53 to read: The Cornwall housing standards supplementary planning document linked to the Design Guide will address issues of accessibility, health, space standards, energy efficiency including other specific issues, for example, the provision of fire sprinklers to mitigate the higher than average distance from emergency services for much of Cornwall's housing. <u>The Residential Amenity Space Standards Supplementary Planning Document will set the minimum performance and space standards expected in planning applications for residential curtilages. The document will not cover space inside the dwelling which is covered by national guidance contained in the 'Technical Housing Standards – nationally described space standard' (March 2015) (or successor standards), which the Council has included in Policy 14 for affordable housing. Building Regulations Approved Document M Volume 1 introduces an optional set of standards for requiring the provision of accessible homes. As referred to in Policy 6 (housing mix) this will continue to be a challenge to Cornwall as the proportion of older people increases in many communities. The adoption by the Local Plan of Category 2: Accessible and adaptable dwellings will help to create more accessible and therefore flexible and mixed communities, enabling homes to be adapted to continue to serve the needs of residents as they change over time. Viability testing has shown this to be viable and therefore it is applied as a requirement to all housing developments of 10 dwellings or greater to provide 25% of dwellings as accessible homes as part of the housing mix.</u> <u>In 2014 Cornwall Council adopted the Open Space Strategy for Larger Towns in Cornwall as interim planning guidance. The strategy identifies local provision standards for open space for Bodmin, Bude, Camborne, Pool, Illogan and Redruth, Falmouth and Penryn, Hayle, Helston, Launceston, Liskeard, Newquay, Penzance and Newlyn, Saltash, St Austell, St Ives and Carbis Bay, Torpoint, Truro and Wadebridge. This will be adopted as Supplementary Planning Document on adoption of this Plan. For larger developments a balance needs to be achieved between private, semi-private and public open space, which includes allotments, sports facilities, children's play area provision and natural open space provision. The Council will seek the provision of larger areas of multifunctional green space as a preference to multiple smaller areas as appropriate in larger developments.</u>

Main Modifications	Page	Policy/ Supporting Text	Proposed modification
			<u>In addition, the Council, alongside the Cornwall Sports Partnership and Sport England, have commenced work on producing a Playing Pitch Strategy for Cornwall to map existing provision and establish demand for facilities to ensure residents continue to enjoy access to high quality playing pitches.</u> <u>Open space should be designed as part of the wider network of multi-functional environmental assets (green infrastructure) as addressed in Policy 25.</u>
89	35	2.54	Amend paragraph 2.54 to read: Zero Carbon is the term used by the Government to describe the 2016 building regulations. The definition of zero carbon has been agreed, but some of the detail will evolve as we get closer to 2016/2019. We support this objective and recognise the need to implement it. <u>Cornwall has a large number of communities that experience 'fuel poverty'. This is where households have required fuel costs that are above average (the national median level) and were they to spend that amount they would be left with a residual income below the official poverty line.</u> <u>The key drivers behind fuel poverty are:</u> • <u>The energy efficiency of the property (and therefore, the energy required to heat and power the home);</u> • <u>The cost of energy; and</u> • <u>Household income.</u> <u>The Council is exploring opportunities for Strategic Heat Network sites through a 'Strategic Heat Opportunities Study'. This is also being applied to identify rural areas, particularly those without access to mains gas. This will provide the basis for the Council's efforts to promote heat networks in Cornwall. Development in the plan period is therefore encouraged to connect or be designed to</u>

Main Modifications	Page	Policy/ Supporting Text	Proposed modification
			<u>facilitate future connection to an existing or planned heat network.</u>
91	35	Policy 14	Amend Policy 14 to read: Policy 14: Development standards All new development will be expected to achieve the provision of the following: <u>1. Sufficient internal space in housing for everyday activities and to enable flexibility and adaptability by meeting nationally described space standards for all affordable housing* ; and</u> <u>2. 1. Provide Public open space on-site, and in proportion to the scale of the development and providing for different types of open space based on local need.</u> Where there is access to alternative facilities <u>that would meet the needs of the new development,</u> contributions to the ongoing maintenance and management of these alternative facilities may be required <u>as part of a reduced requirement on site; and</u> <u>3.2. Provide</u> An appropriate level of off street parking and cycle parking taking into account the accessibility of the location in terms of public transport and proximity to facilities and services; and <u>4.3. Demonstrate</u> Sufficient and convenient space for storage for domestic activities and recreation as well as collection of waste, recycling and compostables; <u>and</u> <u>5.4. Avoidance of</u> adverse impacts, either individually or cumulatively, resulting from noise, dust, odour, vibration, <u>vermin,</u> waste, pollution and visual effects. Such adverse impacts should be avoided <u>or mitigated</u> during the construction, operation or restoration stage of development; <u>and</u> 5. Include measures to reduce pollution within Air Quality Management Areas and meet air quality objectives, that are proposed by the Local Transport Plan and any Air Quality Action Plans.

Main Modifications	Page	Policy/ Supporting Text	Proposed modification
			6. Take advantage of any opportunities to minimise energy consumption, with an emphasis on the fabric of buildings, for example achieving high levels of insulation, use of Utilising opportunities for natural lighting, ventilation, and heating by design, layout and orientation; and This should achieve at least Zero Carbon new builds from 2016 for domestic buildings and from 2019 for non-domestic buildings. <u>7. Where feasible and viable, connection to an existing or planned heat network. In the absence of an existing or planned heat network development will be expected, where feasible, to provide a site-based heat network, or be designed to facilitate future connection to a heat network.</u> 8.7. Additionally Where feasible, the development of decentralised low carbon heat networks is particularly encouraged to or connection to (or be designed to facilitate future connection to) an existing or planned heat network. <u>8. Housing developments of 10 dwellings or greater should provide 25% of dwellings as accessible homes (Building Regulations Approved Document M Volume 1 Category 2: Accessible and adaptable dwellings or successor documents) unless site specific factors make the development unsuitable for such provision</u> <u>*The reference to affordable housing in this policy does not include Starter Homes.</u>
92	36	2.55	Delete paragraph 2.55
93	37	2.61	<i>Not needed for soundness.</i>
94	37	2.62	Insert new paragraphs after 2.62 to read: <u>In June 2015 a Ministerial Statement was issued stating that planning applications for wind energy development involving one or more wind turbines, local planning authorities should only be granted</u>

Main Modifications	Page	Policy/ Supporting Text	Proposed modification
			<u>planning permission where: the development site is in an area identified as suitable for wind energy development in a Local or Neighbourhood Plan; and following consultation, it can be demonstrated that the planning impacts identified by affected local communities have been fully addressed and therefore the proposal has their backing.</u> <u>The Council will not be allocating sites for the development of wind turbines in this plan or a site allocation DPD. This plan (including Policy 15) represents the policy framework against which planning applications will be considered, should they come forward as a result of a Neighbourhood Plan allocation, or as an application for repower of sites which benefit from extant planning consent.</u>
95	37	Policy 15	Amend Policy 15 to read: Policy 15: Renewable and low carbon energy 1. To increase use and production of renewable and low carbon energy generation development proposals will be supported that: a. maximise the use of the available resource by deploying installations with the greatest energy output practicable taking into account the provisions of this Plan; b. make use, or offer genuine potential for use, of any waste heat produced; and c. in the case of wind turbines, they <u>are within an area allocated by Neighbourhood Plans for wind power and</u> avoid, or adequately mitigate unacceptable shadow flicker, <u>noise</u> and adverse impact on air traffic operations, radar and air navigational installations <u>and</u> do not have an overshadowing or overbearing effect on nearby habitations. d. in the case of solar development, unacceptable <u>noise</u>, glint and glare is mitigated adequately.

Main Modifications	Page	Policy/ Supporting Text	Proposed modification
			2. Particular Support will be given to renewable and low carbon energy generation developments that: a. are led by, or meet the needs of local communities; and b. creates opportunities for co-location of energy producers with energy users, in particular heat, and facilitate renewable and low carbon energy innovation. 3. When considering such proposals, regard will be given to the wider benefits of providing energy from renewable sources, as well as the potential effects on the local environment; including any cumulative impact of these proposals. 4. In and adjacent <u>within the setting of</u> Areas of Outstanding Natural Beauty and undeveloped coast, developments would not be allowed except <u>will only be permitted</u> in exceptional circumstances and should generally be very small scale in order that the natural beauty of these areas may be conserved. 5. When considering proposals for wind turbines within <u>renewables that impact upon</u> the setting of the Area of Outstanding Natural Beauty <u>and its setting</u> and / or the World Heritage Site <u>and its setting</u>, the status of these designations shall be taken into account when assessing landscape impact <u>or other historic assets and their settings, applicants should apply other relevant policies in the plan.</u>
96	38	2.65	Insert new paragraphs after 2.65 to read: <u>Development can maximise positive health impacts and ensure the mitigation of negative health impacts through the use of Health Impact Assessments for significant major development proposals. Health Impact Assessment (HIA) is a means of assessing the potential health impacts of policies, plans and projects on the health of a population, and the distribution of those effects within the population. HIA helps decision-makers make choices about alternatives and improvements to prevent disease/injury and to actively promote health. Where this is undertaken it should form part of the planning submission to demonstrate how the assessment has shaped the eventual scheme.</u>

Main Modifications	Page	Policy/ Supporting Text	Proposed modification
			<u>Air pollution is a top 10 cause of death in the UK. The main cause of poor air quality is vehicle emissions. Hot spots are declared under the Environment Act 1995 as Air Quality Management Areas (AQMAs) and have Action Plans, to effect improvement, prepared for them that include behaviour and infrastructure improvements. In Cornwall there are 6 AQMAs; Bodmin; Camborne-Pool-Redruth; Tideford; St Austell; Gunnislake and Truro. This list is not exhaustive and candidate areas are continually being assessed.</u> <u>Planning decisions, individually or cumulatively, should not lead to unacceptably poor air quality. In AQMAs, proposals must demonstrate, by appropriate assessment methods set out in respective Action Plans, that they will not materially affect or degrade AQMAs or present an unacceptable risk to human health either in terms of the significance of the number of people at risk or the changes on the concentrations of pollutants. Development should not normally be allowed where acceptable mitigation cannot be identified.</u>
97	39	Policy 17	Amend Policy 17 to read: Policy 17: Health and wellbeing To improve the health and wellbeing of Cornwall’s communities, residents, workers and visitors, development should: 1. Protect, and alleviate risk to, people and the environment from unsafe, unhealthy and polluted environments by avoiding or mitigating against harmful impacts and health risks such as air and noise pollution and water and land contamination and potential hazards afforded from future climate change impacts; and 2. <u>Where it affects Air Quality Management Areas, demonstrate that singularly or cumulatively, it will not cause increased risk to human health from air pollution or exceeding EU standards. Measures proposed to mitigate this should reflect Cornwall’s Air Quality Action Plan and Local</u>

Main Modifications	Page	Policy/ Supporting Text	Proposed modification
			<u>Transport Plan and aimed at achieving reductions in pollutant emissions and public exposure; and</u> <u>3.</u> 2. Maximise the opportunity for physical activity through the use of open space, indoor and outdoor sports and leisure facilities and <u>providing or enhancing active</u> travel networks <u>that</u> support <u>and encourage</u> walking, riding and cycling; <u>and</u> <u>4.</u> 3. Provide where possible dwellings which have easy, safe and secure storage for cycles and other recreational equipment; <u>and</u> <u>5.</u> 4. Encourage provision for growing local food such as allotments or <u>in</u> private gardens which are large enough to accommodate vegetable growing or <u>greenhouses or through the provision of allotments ; and</u> <u>6.</u> 5. Provide flexible community <u>open</u> spaces that can be adapted to the health needs of the community and encourage social interaction. 6. Maximise positive health impacts and ensure the mitigation of negative health impacts through the use of Health Impact Assessment for significant major development proposals.
98	39	2.66	Amend paragraph 2.66 to read: Cornwall's wealth of mineral resources has the potential to continue to contribute significantly to its economy over the plan period and beyond. There is great potential for adding value to the raw products, and for generating employment within the industry and the companies and organisations which serve it, including the education and skills sector. There is a need to maintain a sufficient supply of minerals needed for a variety of uses. <u>When determining planning applications for new permitted reserves (including extensions to existing mineral operations) the Council will consider whether the economic and other benefits outweigh any adverse impacts of the development.</u>
99	40	2.68	Amend paragraph 2.68 to read:

Main Modifications	Page	Policy/ Supporting Text	Proposed modification
			China clay (also known as kaolin) resources are mainly confined to the western and central part of the Hensbarrow (St Austell) granite. The china clay industry currently employs about 1,000 people directly and contributes significantly to the economy of mid Cornwall. The British Geological Survey estimates reserves exceeding 60 million tonnes which will provide supply for almost 60 years. <u>The 'St Austell Tipping and Restoration Strategy' (adopted 2000) will continue to provide planning guidance in support of policies in this plan and will be reviewed and updated to ensure relevance over the Plan period.</u>
100	40	2.69	Amend paragraph 2.69 to read: Aggregates are used by industry in the construction of buildings and transport infrastructure. The Local Aggregates Assessment estimates that permitted reserves of primary crushed rock aggregate amounts to over 130 million tonnes. These reserves are spread throughout the County. Reserves of primary hard rock aggregates in Cornwall are plentiful and capable of meeting demand well beyond the plan period. Therefore there is no need to allocate further sites or areas for mainstream primary aggregate extraction. There is a shortage of High Specification Aggregates (HSA) used for skid resistant road surfaces, resulting in much material being imported from outside Cornwall. The safeguarding of land for HSA extraction will be considered in the Cornwall Minerals Safeguarding Development Plan Document. <u>Policy 18 recognises that some minerals can only be worked where they are found, primary aggregates extraction is not restricted outside the AONB. However, within the AONB the policy supports extraction of primary aggregate extraction where this is not provided for by other permitted reserves.</u>
101	40	2.70	Amend paragraph 2.70 to read: There are no major natural non-marine deposits of primary sand and gravel aggregates in Cornwall. In addition, given the commercially competitive and plentiful secondary sand and gravel reserves arising from china clay extraction, it is not necessary to allocate land for further planning permissions for primary sand and gravel extraction in Cornwall. Devon, Somerset and Cornwall are committed to make provision for 0.9 million tonnes per annum of primary sand and gravel, it is agreed that Cornwall is unable to contribute to this shared sub-

Main Modifications	Page	Policy/ Supporting Text	Proposed modification
			regional apportionment. <u>Devon, Somerset and Cornwall have previously made joint provision for the supply of sand and gravel, however, it is agreed by the three authorities that, due to a lack of resources, Cornwall is unable to contribute further.</u>
102	41	Policy 18	Amend Policy 18 to read: Policy 18: Minerals - general principles 1. Support will be given to maintain and grow a world class, thriving and sustainable minerals industry in Cornwall which meets local needs as well as exporting minerals, predominantly by rail and sea, to serve regional, national and international markets. 2. A sufficient supply of indigenous minerals will be maintained to achieve sustainable and economic growth, whilst encouraging the use of recycled and secondary materials, particularly secondary aggregates from china clay (kaolin) production, to minimise the requirement for new extraction. 3. New mineral development, <u>(including extensions to existing sites)</u> of a scale sensitive to its landscape designations, will be supported in the following areas: a. China clay (kaolin) and secondary aggregate extraction in the St Austell (Hensbarrow) China Clay Area; <u>b. Primary aggregate extraction where it is outside the AONB designation; and</u> b c. throughout Cornwall for: i. Building, roofing, heritage and ornamental stone,

Main Modifications	Page	Policy/ Supporting Text	Proposed modification
			ii. Metal and industrial minerals, iii. Primary aggregate development for particular grades of material not provided for by other permitted reserves. <u>4. Improved and more efficient working practices at existing minerals sites will be supported.</u> 4 5. Mineral recycling and recovery facilities will be supported where they fall within well screened areas at currently operational quarries and landfill sites. 5 6. Mineral development should have no adverse impact on: slope stability, differential settlement of quarry backfilling, and mining subsidence. 6 7. All mineral development should enable progressive and effective reclamation at the earliest opportunity, <u>taking into account aviation safety,</u> for appropriate and beneficial after-uses that: i. Contribute to and enhance the natural and local environment including, ecosystem services and networks, ii. Conserve and enhance heritage assets and protect and enhance valued landscapes, geological conservation interests and soils, iii. Have the potential for wider community benefits.
103	42	Policy 19	Amend Policy 19 to read: Policy 19: Minerals safeguarding 1. Important mineral resources and reserves and <u>existing, planned and potential</u> associated bulk transport, storage, handling and processing facilities and sites shall be safeguarded from sterilisation by other forms of <u>incompatible</u> development.

Main Modifications	Page	Policy/ Supporting Text	Proposed modification
			2. Mineral Safeguarding Areas will be identified for the following minerals resources and reserves; a. aggregates (both primary and secondary), b. china clay, c. building and ornamental stone (including roofing and heritage materials) and d. metals <u>(including relevant shafts and adits).</u> 3. Mineral Safeguarding Areas will be identified for the following <u>existing, planned and potential</u> mineral infrastructure; a. key concrete batching and other products and roadstone coating, b. <u>Storage,</u> handling, processing and distribution of <u>minerals</u> substitute, recycled and secondary aggregate, c. the bulk transport of minerals by rail, sea (ports) or haul roads. The Cornwall Minerals Safeguarding Development Plan will develop detailed policy and identify sites for safeguarding minerals, mineral resources and associated facilities for transport, storage, handling and processing for onward transport by rail or sea. Key sites used for the batching / manufacture of concrete products and coated materials will also be identified for safeguarding as well as sites for processing and the distribution of substitute recycled and secondary aggregate materials. Policy will also be developed to encourage prior extraction where appropriate.
104	43	2.78	Amend paragraph 2.78 to read: National Policy (NPPF) does not currently contain specific waste policies although draft planning policy on waste

Main Modifications	Page	Policy/ Supporting Text	Proposed modification
			has been published for consultation (July 2013). Planning Policy Statement 10 (Sustainable Waste Management) will remain in place until draft national waste planning policy is adopted. <u>National policy for waste is set out within the National Planning Policy for Waste (published October 2014). This document should be read in conjunction with the National Planning Policy Framework, National Waste Management Plan for England and national policy statements for waste water and hazardous waste.</u>
105	45	2.86	Amend paragraph 2.86 to read: It is expected that approximately 73,000 tonnes of hazardous waste will be produced annually by 2030. This includes provision for fly ash that is expected to arise from the CERC. The vast majority of this is from waste oil, however there are already large facilities for dealing with this in Falmouth and Saltash. In light of this existing capacity there will be no need for additional hazardous waste recycling / re-use facilities. It is projected that there will be a landfill requirement for just under 540,000 m³ of landfill capacity by 2030. However, hazardous landfill facilities are currently provided at the national and regional rather than the local level, due to the costs of setting up such facilities and the need to attract sufficient throughput to support the operation. It is therefore considered inappropriate to make any additional provision in Cornwall before 2030 unless specific significant demand can be identified that cannot be met economically at the regional level. <u>Criteria for assessing planning applications for hazardous waste facilities are set out within Policy 20.</u>
106	45	2.86	Insert new paragraph after 2.86 to read: <u>Safeguarding: It is important to ensure that waste management sites are able to continue working without being constrained by new development nearby that may be sensitive to the impacts of the waste operations. A list of waste sites will be published as part of the monitoring indicator 20.1 in the Annual Monitoring Report.</u>
107	45	2.87	Amend paragraph 2.87 to read: Table 4 <u>6</u> summarises the requirement for strategic waste management infrastructure over the plan period.

Main Modifications	Page	Policy/ Supporting Text	Proposed modification												
			<u>Notwithstanding the existing level of permitted capacity for recycling/re-use and recovery facilities, proposals for additional such facilities will be supported subject to their meeting other policies within the Plan and being in accordance with the 'Waste Hierarchy'.</u>												
108	45	Table 4	Amend Table 4 to read: Table 4 6: Future waste management infrastructure requirements. <table border="1"> <thead> <tr> <th>Waste Stream</th><th>Recycling / re-use (including composting)</th><th>Energy recovery</th><th>Landfill</th></tr> </thead> <tbody> <tr> <td>Local Authority Collected Waste and Commercial & Industrial Waste</td><td>None*</td><td>None</td><td>Approx. 200,000 m3</td></tr> <tr> <td>Construction, Excavation and Demolition Waste</td><td>Approx. 377,000 tonnes / year</td><td>None</td><td>Approx. 659,000 m3</td></tr> </tbody> </table> <u>*This takes into account the permitted (not operational) facility at the Cornwall Bio Park (Hallenbeagle, Scorrier). Should this permission not be implemented, capacity would be needed for an alternative facility.</u>	Waste Stream	Recycling / re-use (including composting)	Energy recovery	Landfill	Local Authority Collected Waste and Commercial & Industrial Waste	None*	None	Approx. 200,000 m3	Construction, Excavation and Demolition Waste	Approx. 377,000 tonnes / year	None	Approx. 659,000 m3
Waste Stream	Recycling / re-use (including composting)	Energy recovery	Landfill												
Local Authority Collected Waste and Commercial & Industrial Waste	None*	None	Approx. 200,000 m3												
Construction, Excavation and Demolition Waste	Approx. 377,000 tonnes / year	None	Approx. 659,000 m3												
109	45	2.88	Insert new paragraphs after 2.88 to read: <u>Given the importance of moving the treatment of waste up the waste hierarchy, proposals for additional reuse/recycling/recovery will be supported notwithstanding the Council's assessment of capacity.</u>												

Main Modifications	Page	Policy/ Supporting Text	Proposed modification
			<u>Recovery facilities include those that are large and small. Facilities do not necessarily need to comply with criteria R1 of the Waste Framework Directive for heat recovery.</u>
110	45	Policy 20	Amend Policy 20 point 4 to read: <u>4. When determining planning applications for non-waste development, the Council will ensure that any likely impact on existing waste facilities (as detailed in the Annual Monitoring Report) is acceptable and does not prejudice the implementation of the waste hierarchy and/or the efficient operation of such facilities.</u>
111	46	Policy 21	Amend Policy 21 point 3 to read: 3. Landfill development shall enable effective site reclamation at the earliest opportunity, <u>taking into account aviation safety,</u> for appropriate end uses.
112		2.90	Amend paragraph 2.90 to read: It will support our ability to respond to longer term global changes. It will also strengthen a range of objectives: the protection of our environment from flooding and through flood alleviation, the aim for self-sufficiency in energy and food and export markets, support and increase biodiversity; as well as the effective treatment of waste and the sustainable use of minerals. The achievement of these objectives will in turn help to deliver economic objectives and benefits. <u>Proposals to reuse previously developed land and buildings are encouraged, but these must consider the suitability of the site in terms of accessibility and location. Many of Cornwall's brownfield sites are contaminated and this will need to be addressed to explore whether the site can be satisfactorily remediated for the new use proposed.</u>
112a	47	2.90	Insert new paragraphs after 2.90 to read: <u>The Cornwall Local Plan seeks to deliver a sustainable balance of development, meeting our communities' needs and seeking to protect and enhance our environment. The plan led system</u>

Main Modifications	Page	Policy/ Supporting Text	Proposed modification
			<u>provides the best way of achieving this objective as set out in Policy 3 of this Plan. The Plan and the Allocations Document and other DPDs should identify sufficient land to meet those needs locally but also seeks to ensure that proposals prioritise previously developed land.</u> <u>The importance of the countryside (defined here as the area outside of the urban form of settlements) ranges from its value as agricultural land, for its landscape value, its biodiversity and historic character. The emerging Site Allocations Document for the main towns and Neighbourhood Plans will consider the need for significant areas of greenfield land use to meet future needs against the provisions of Policy 22.</u>
113	47	Policy 22	Amend Policy 22 to read: Policy 22: Best use of land and existing buildings To ensure the best use of land, development proposals should give priority to <u>encouragement will be given to sustainably located proposals that:</u> a. <u>use</u> previously developed land and buildings, provided that they are not of high environmental <u>or historic</u> value; or b. <u>use</u> despoiled, degraded, derelict and contaminated land provided that it is not of high environmental <u>or historic</u> value; or c. the subdivision of properties, the reuse or conversion of existing vacant properties and <u>increase</u> building density, that will <u>where appropriate, taking into account the character of the surrounding area and access to services and facilities to</u> ensure an efficient use of land; <u>d. take into account the economic and other benefits (including food production)</u> d. the safeguarding of Grade 1, 2 and 3a agricultural land, for food production (and where reasonable alternatives for development can

Main Modifications	Page	Policy/ Supporting Text	Proposed modification
			be identified, the safeguarding of grade 3b agricultural land); and <u>Where significant development of agricultural land is demonstrated to be necessary, poorer quality land should be used in preference to that of higher quality.</u> e. the safeguarding of land to make space for water at times of flood.
114	47	2.91	Delete paragraph 2.91
115	47	2.92	Delete paragraph 2.92
116	48	Policy 22A	Delete Policy 22A
117	48	2.97	Amend paragraph 2.97 to read: These <u>Protected areas in Cornwall include:</u> Areas of Outstanding Natural Beauty which covers 26% of Cornwall including Bodmin Moor, the Camel Estuary and the Tamar Valley, 17 Special Areas of Conservation (<u>SACs</u>), 2 Special Protection Areas (<u>SPAs</u>), <u>as well as potential SPAs and candidate SACs. 145, 144</u> Sites of Special Scientific Interest, Listed Buildings, Conservation Areas, Scheduled Ancient Monuments, Special Protection Areas, Protected Species, Conservation Areas, <u>Marine Conservation Zones (MCZs)</u> and international agreements such as listed or proposed RAMSAR or the World Heritage Site which has been designated in recognition of Cornwall's Mining Heritage and the European Landscape Convention.
118	49	2.98	Delete paragraph 2.98
119	49	2.98	Insert new paragraphs to replace paragraph 2.98 to read: <u>Figure 5 shows the 25 designated European sites (SACs, SPAs) and candidate and potential European sites (cSACs and pSPAs) that lie wholly or partly within Cornwall.</u> <u>Seven of these sites: Carrine Common SAC, Fal and Helford SAC, Godrevy Head to St Agnes SAC, Penhale Dunes SAC, Plymouth Sound and Estuaries SAC, Marazion Marsh SPA, and Tamar Estuaries Complex SPA were initially identified to have potential risk of significant effects from recreational</u>

Main Modifications	Page	Policy/ Supporting Text	Proposed modification
			<u>pressure. Each has an agreed management plan in place.</u> <i>(Minor editing of published change for accuracy and deletion of text concerning Falmouth to St Austell Bay pSPA.)</i>
119/1	49	Figure 5	Replace existing map with new map. Figure 5: Designated, or Candidate <u>or potential</u> European Sites 

Main Modifications	Page	Policy/ Supporting Text	Proposed modification
119/2	49	2.98 Figure 6	<u>Visitor surveys elsewhere indicate that large coastal (particularly estuarine) sites tend to have considerably larger catchments than inland sites, and that typically at least 50% of visitors live within 10km for coastal or estuarine sites, whilst at least 50% of visitors live within 5 km of inland sites .</u> <u>Cornwall Council has designed a recreational impacts study, having regard to access, types of use and qualifying features, and is collecting visitor survey data to establish an up to date baseline confirming levels of recreational use and where regular users travel from, in order to define a local zone of influence. This will inform any necessary mitigation strategies including - visitor management, developer contributions and greenspace requirements in new development. These studies commenced in 2015 and initial findings have led to a refinement of these nationally derived zones of influence.</u> <u>From this initial survey work, no zones of influence were identified for recreational impacts on Carrine Common SAC and Godrevy Head to St Agnes SAC, but such impacts will be monitored to identify whether a recreational zone of influence will need to be established for these sites in the future.</u> <u>A supplementary planning document is being produced, based on the findings of the study, setting out the required mitigation for the 5 European sites where recreational pressures have been identified. Following collection of baseline information draft guidance will be published in Autumn 2016 with a view to adoption of the SPD in Spring 2017. Cornwall Council will work with other Competent Authorities and partners in using the information gathered to help inform the future management of the sites.</u>

Main Modifications	Page	Policy/ Supporting Text	Proposed modification
			<u>We will apply these zones (through Policy 23a – European Protected Sites – mitigation of recreational impacts from development), as set out below. Within these zones of influence the Council would not accept development, without appropriate mitigation or site management, where it is likely to generate recreational activity that would have adverse impact on the integrity of the site. All applications within the zones of influence will be screened for Likely Significant Effects. A contribution to management is likely to be required for those European sites where a zone of influence has been identified as necessary, but the study will update the final zones of influence and the types of mitigation required.</u> <u>Mitigation measures could potentially include:</u> <u>(a) Terrestrial sites:</u> <u>i) on site access and visitor management;</u> <u>ii) off site provision of additional recreational facilities</u> <u>(b) Marine/estuarine sites:</u> <u>i) On site management of recreational infrastructure (for example rationalise slipway provision etc), visitor access and visitor management;</u> <u>ii) Coordination of different activities which have the potential to impact on the features of the European sites.</u> <u>Monitoring of the policy will be aimed at assessing the impacts of new development on the European sites in figure 5, to establish a better evidence base to inform future refinement of existing management plans and mitigation measures.</u> <u>The Habitats Regulations Assessment (April 2016) concluded that the classified features of the Falmouth Bay to St Austell Bay pSPA are not very vulnerable to increases in recreational pressure. Any recreational effects on the classified features of the pSPA will be monitored to assess any</u>

Main Modifications	Page	Policy/ Supporting Text	Proposed modification
			<u>potential adverse impacts in the future.</u> <i>Amendments to published change to make clear that there is currently no identified zone of influence in relation to Carrine Common SAC and Godrevy Head to St Agnes SAC; to clarify that mitigation for recreational effects is sought only in relation to sites where a zone of influence has been identified (rather than all European sites) and to confirm the factual position in relation to the pSPA.</i>
119/3	49		<i>Not needed for soundness.</i>
120	49	2.98	Insert new Policy 23a: <u>Policy 23a: European Protected Sites– mitigation of recreational impacts from development</u> <u>For residential development and student and tourist accommodation, mitigation measures for recreational impacts will be required where development is proposed within the identified zones of influence around those European sites that are vulnerable to adverse recreational impacts. Residential development, student and tourist accommodation within these zones of influence will be required to provide for appropriate management, mitigation and monitoring on site, and/ or financial contributions towards off site mitigation and management. This will need to be agreed and secured prior to approval of the development.</u> <u>Mitigation measures will include:</u> <u>● On site access and management</u> <u>● Off-site provision of suitable alternative recreational facilities</u> <u>The required level of contributions will be set out in more detail in European Sites Mitigation Strategy Supplementary Planning Document.</u> <i>(Minor editing of published change for clarity.)</i>
120a		2.99	Delete paragraph 2.99

Main Modifications	Page	Policy/ Supporting Text	Proposed modification
120b		2.100	<i>Not needed for soundness.</i>
121	49	2.103	Amend paragraph 2.103 and add additional paragraphs to read: <u>Proposals for development should be informed by and respond to the natural environment in line with their status:</u> <u>Areas of Outstanding Natural Beauty (AONB): When considering proposals for development within the AONB, the Council will ensure that development is in accordance with the great weight afforded to their landscape and scenic beauty in national policy and the aims and objectives of the Cornwall and Tamar AONB Management Plans and their associated supplementary planning guidance on sensitivity and capacity for housing development in the AONB. These in particular, provide guidance on what constitutes 'major' development within an AONB stating that this will depend on the local context, the scale, location and type of development proposed.</u> <u>Proposals within the AONB, or those that would affect its setting will be supported where they are small scale and meet an identified local need, where landscape capacity can be demonstrated and the natural beauty of the AONB can be conserved and enhanced in accordance with Policy 23. Proposals for major development in the Area of Outstanding Natural Beauty will be refused except in exceptional circumstances and where it can be demonstrated that they are in the public interest as set out in national policy.</u> <u>The Cornwall AONB Management Plan is able to view by visiting: http://www.cornwallaonb.org.uk/management-plan</u> <u>The Tamar Valley AONB Management Plan is able to view by visiting: http://www.tamarvalley.org.uk/care/aonb-management-plan/</u> <u>Heritage Coast: Within the Heritage Coast area as shown on the Policies Map, proposals must respect the natural beauty of the coast, including flora and fauna, and heritage features. In addition</u>

Main Modifications	Page	Policy/ Supporting Text	Proposed modification
			<u>they should facilitate and enhance the enjoyment of the Heritage Coast whilst complementing the natural beauty and heritage features; and maintain and, where necessary, enhance the environmental health of inshore waters.</u> <u>Landscape Character: To assist in the assessment of landscape character, the Council has undertaken an objective assessment which divides Cornwall into 40 landscape character areas, highlighting key features which make one area different from another. Reading these character area descriptions will also help understand which landscape components make an area distinctive. It is these key elements that need to be managed and enhanced whilst accommodating future development.</u> <u>The Cornwall Landscape Character Assessment is able to view by visiting: https://www.cornwall.gov.uk/environment-and-planning/cornwalls-landscape/landscape-character-assessment/</u> <u>Area of Great Landscape Value (AGLV): Identified on the Local Plan policies map these are areas of high landscape quality with strong and distinctive characteristics which make them particularly sensitive to development. Within AGLVs the primary objective is conservation and enhancement of their landscape quality and individual character.</u> <u>The Undeveloped Coast: consists of open stretches of undeveloped land alongside the coastline that have their own special character based on the extent of maritime and coastal influences, particularly its visibility from sea, coastline and estuary. It should be regarded as a finite resource for the enjoyment of everyone now and in the future.</u> <u>The Landscape Character Assessment provides useful descriptions of the undeveloped coast. This should be used in combination with seascape character assessments (where available) as a basis for understanding the character of the undeveloped coast and its likely sensitivity to new development.</u>

Main Modifications	Page	Policy/ Supporting Text	Proposed modification
			<u>Where possible the undeveloped coast should remain open unless development requires a coastal location such as flood defences and measures to improve public access and enjoyment. All proposals must conserve and enhance the distinctive coastal landscape and seascape qualities and character.</u> <u>Seascape Character Assessment (SCA) often extend to the landward extent of the terrestrial coastal zone so that there is an overlap with landscape character assessments (LCA); where this is the case the two resources should be used together to provide a fully integrated resource on landscape and seascape character.</u> <u>Assessments should include:</u> <u>●atmospheric conditions, e.g. climate</u> <u>●human use of the coast and sea</u> <u>●coastal features</u> <u>●surface water features</u> <u>●coastal processes</u> <u>●sunken and buried characteristics</u> <u>Cornwall Council is developing a Seascape Character Assessment alongside the Marine and Maritime Organisation as part of the development of the South West Marine Plan.</u> <u>Special Areas of Conservation (SAC), Special Protection Areas (SPA), Ramsar sites and potential SPA and candidate SAC and proposed Ramsar sites: Subject to the legal tests of the Habitats Regulations development will not be permitted unless it can show it will not have an adverse effect on the integrity of the designated site, whether direct or indirect, having regard to avoidance or mitigation measures.</u> <u>Sites of Special Scientific Interest (SSSI): Development proposals within or outside an SSSI which would be likely to adversely affect the site will not be permitted unless the benefits of the development clearly outweigh both the adverse impacts on the site and any adverse impacts on the</u>

Main Modifications	Page	Policy/ Supporting Text	Proposed modification
			<u>wider network of SSSIs.</u> <u>Biodiversity and geodiversity: have a crucial influence on the well-being of people and play a key role in climate change adaptation and mitigation. This plan aims to prevent harm to these assets and to achieve a net gain for biodiversity.</u> <u>All biodiversity is important. It represents the variety of life and provides us with crucial resources like fresh air and clean water for our daily lives. Biodiversity is all around us and some areas are protected by designations which represent the very best examples as well as some of the rarest and most threatened of Cornwall's habitats, plants and animals. However we cannot disconnect biodiversity from geodiversity which underpins it. This covers the variety of rocks, minerals, fossils, soils, landforms and the natural processes which form and alter them. It is the foundation of our natural environment, supports our biodiversity and ecosystems, and provides the raw materials for construction, the soils for growing our crops and clean water. It also shapes Cornwall's distinctive landscapes.</u> <u>International, National and Local Designated sites</u> <u>International Sites: include potential and existing Special Protection Areas, candidate and existing Special Areas of Conservation and listed or proposed Ramsar sites. The highest level of protection will be given to European designated sites. The presumption in favour of sustainable development does not apply to development assessed as likely to have a significant effect on such sites.</u> <u>National sites: include Sites of Special Scientific Interest (SSSI), Geological SSSI and Marine Conservation Zones (the marine equivalent of a SSSI). Development that is likely to have an adverse effect on these sites, alone or in combination with other developments, will only be permitted in exceptional circumstances, where the benefits of the development unequivocally outweigh the impacts on the site's designated features and on the network of national sites.</u>

Main Modifications	Page	Policy/ Supporting Text	Proposed modification
			<u>Local sites: include Biodiversity Action Plan habitats and species, County Wildlife Sites, Local Geological Sites and Local Nature Reserves. There are about 400 County Wildlife Sites, Geological Sites of Significance and Local Nature Reserves covering approximately 10% of Cornwall's land area, all of which contribute to environmental quality and sense of place. Local sites form the stepping stones of a countywide biodiversity network of wildlife corridors and play a key part in helping to deliver the Cornwall Biodiversity Action Plan. Developments should help build this biodiversity network as appropriate and should not adversely impact on local sites. Where significant harm cannot be avoided, suitable solutions to maintaining the local sites network should be considered.</u> <u>Undesignated sites</u> <u>Whilst a variety of areas are covered by designations, they cover only a fraction of what exists and many species are mobile and found outside of protected areas. Undesignated areas provide valuable links between habitat and it is therefore highly important that the biodiversity value of non-designated terrestrial, freshwater and marine areas is understood and recognised. A Biodiversity SPD is being produced to provide more information on the subject.</u> <u>Development and mitigation</u> <u>Development should aim to avoid any adverse impact on biodiversity and geodiversity. Where significant adverse impacts would result, the first priority should be relocation of the development to an alternative site. If impacts cannot be avoided then suitable mitigation is required. If that is not possible, then full compensation must be provided.</u> <u>Planning applications which have the potential to impact on biodiversity and geodiversity (including, but not restricted to, Local Nature Reserves (LNR), Regionally Important Geological/Geomorphological Sites (RIGs), and habitats of species of principal importance for biodiversity) will need to be accompanied by ecological statements, which describe the ecological value of the site and the nature and extent of any impact of the proposed development. They should outline any mitigation measures and the steps to be taken to enhance biodiversity features, avoid adverse impact on ecological features and where</u>

Main Modifications	Page	Policy/ Supporting Text	Proposed modification
			<u>appropriate manage the biodiversity interest, as part of the proposals. Further information on the standard of surveying and reporting required is set out in the biodiversity SPD being prepared by the Council to assist applicants.</u> surveys, which incorporate a biodiversity impact assessment, ecological surveys need to describe biodiversity interest of the site and the nature and extent of any impact of the proposed development, They should outline any mitigation measures and the steps to be taken to retain, incorporate, protect, enhance and where appropriate manage the biodiversity interest, as part of the proposals. Proposals near or affecting a SAC also require a Habitats Regulations Assessment. <u>Ancient woodland and veteran trees are irreplaceable. Ancient woodland takes hundreds of years to establish and is considered important for its wildlife, soils, recreation, cultural value, history and contribution to landscapes.</u> <u>'Ancient woodland' is any wooded area that has been wooded continuously since at least 1600 AD. It includes:</u> <u>•'ancient semi-natural woodland' mainly made up of trees and shrubs native to the site, usually arising from natural regeneration</u> <u>•'plantations on ancient woodland sites' - areas of ancient woodland where the former native tree cover has been felled and replaced by planted trees, usually of species not native to the site</u> <u>Veteran trees are trees which, because of their age, size or condition are of cultural, historical, landscape and nature conservation value. They can be found as individuals or groups within ancient wood pastures, historic parkland, hedgerows, orchards, parks or other areas.</u> <i>(Some editing of the published change for clarity and consistency with Regulations and the NPPF.)</i>

Main Modifications	Page	Policy/ Supporting Text	Proposed modification
122	49	Policy 23	Amend Policy 23 to read: Policy 23: Natural environment <u>1.</u> Development proposals will need to sustain local distinctiveness and character and protect and <u>where possible</u> enhance Cornwall's natural environment and assets according to their international, national and local significance. through the following measures; <u>2</u> ±. Cornish Landscapes Development should be of an appropriate scale, mass and design which <u>that</u> recognises and respects landscape character of both designated & <u>and</u> un-designated landscapes. Development must take into account and respect the sensitivity and capacity of the landscape asset, considering cumulative impact and the wish to maintain dark skies and tranquillity in areas that are relatively undisturbed, using guidance from the Cornwall Landscape Character Assessment and supported by the descriptions of Areas of Great Landscape Value. In areas of undeveloped coast, outside main <u>settlements</u> towns, only development requiring a coastal location and that cannot be achieved elsewhere, will be acceptable. <u>2(a).</u> The Cornwall and Tamar Valley Area of Outstanding Natural Beauty <u>Great weight will be given to conserving the landscape and scenic beauty</u> Ensuring that any proposals within the AONB or affecting its <u>the setting of the AONB. Proposals must</u> conserves and enhances the <u>landscape character and</u> natural beauty and special qualities of the AONB; and provide only for an identified local need and is be appropriately located to address the AONB's sensitivity and capacity. <u>Proposals should be informed by</u> and <u>assist the delivery of</u> delivers the objectives of the Cornwall and Tamar Valley AONB Management Plans including the interests of those who live and / or work in them. <u>Major development in the AONB will be refused subject to the tests of exceptional circumstances and where it can be demonstrated that the development is in the public interest as set out in national policy.</u>

			<i>(Minor editing of published change for clarity.)</i>
122a			<i>Not needed for soundness.</i>
122b		After Policy 23 Fig 7	Figure 7: South West nature map deleted
123	51	2.104	Amend paragraph 2.104 to read: We recognise the that Cornwall's outstanding and distinctive historic environment is an important as-a non-renewable, outstanding and distinctive irreplaceable resource that contributes to Cornwall's our economy, tourism, education, and culture and community identity. <u>Proposals for development should be informed by and respond positively to the historic environment to</u> This should act as a catalyst for place making in Cornwall that can to reinforce local identity, character and distinctiveness. and proposals for development should be informed by and respond positively to the historic environment.
124	51	2.105	Amend paragraph 2.105 to read: <u>The</u> National Planning Policy Framework (NPPF) provides guidance <u>which should be used alongside this Plan, particularly</u> on the identification, significance, and protection of heritage assets <u>both designated and undesignated. We expect applicants to assess and describe the significance of these assets, including any contribution made by their setting, sufficient to understand the potential impact of any proposal on that heritage significance. The determination of planning applications by the Council will be based on the assessment of the potential harmful impact, taking into account the desirability of not only sustaining the asset's significance, but also of enhancing that significance and the positive contribution both conservation and well-informed new design can make to sustainability and local character and distinctiveness.</u> these include Listed Buildings and Scheduled Ancient Monuments which are protected by legislation. English Heritage keep an up to date register or all listed buildings and scheduled ancient monuments and proposals which support those at risk will be encouraged. Alongside these exist a number of designated heritage assets including Registered Parks and Gardens, Conservation Areas and other

Main Modifications	Page	Policy/ Supporting Text	Proposed modification
			areas of historic interest that are protected through the planning process. National policy recognises the value of local heritage assets but expects that decisions are based on the nature, extent, and level of that heritage significance., in the determination of planning applications.
125	51	2.106	Delete paragraph 2.106
126	51	2.106	Add additional paragraphs after paragraph 2.105 to read: <u>The determination of planning applications by the Council will be based on the assessment of the potential harmful impact, taking into account the desirability of not only sustaining the asset's significance, but also of enhancing that significance and the positive contribution both conservation and well-informed new design can make to sustainability and local character and distinctiveness.</u> <u>A substantial body of evidence on the historic environment has been collected and has informed the development of the Local Plan and its strategy for Cornwall's historic environment. The key resource is the Cornwall Historic Environment Record which contains and provides access to a wide range of evidence used to develop an understanding of Cornwall's historic environment, local distinctiveness and its heritage assets and those parts of the historic environment which have a particular value or significance. These, and any other relevant resources, should be consulted as appropriate as part of an assessment process: these include the Cornwall Historic Landscape Characterisation, The Cornwall & Scilly Urban Survey, Cornwall Industrial Settlements Initiative, community network area Historic Environment Data sheets, Conservation Area Appraisals and Management Plans, site specific reports and topic-specific papers such as Improving Energy Efficiency in Cornish Historic Buildings.</u>
127	51	2.107	Delete paragraph 2.107
128	51	2.107	Replace paragraph 2.107 with new paragraphs to read: <u>In broad terms, the Council considers that the following characteristics make a significant</u>

Main Modifications	Page	Policy/ Supporting Text	Proposed modification
			<u>contribution to the local character and distinctiveness of Cornwall and where applicable, development proposals will be expected to demonstrate how these characteristics have been assessed and conserved.</u> <u>Cornwall's historic environment is the product of 10,000 years of human activity responding to its unique geography and location. The slates and granite bedrock geology with its unique mineral resources, its place at the extreme west of the country, and yet at the entrance to the English Channel, long stretches of exposed coastline broken by sheltered estuaries, its mild, but exposed maritime climate, difficult topography for overland travel but scenic attractions, all have been hugely influential in creating, or preserving, cultural distinctiveness and have all contributed to an historic environment which is both distinctive in character and distinctive in its extraordinary variety. Particularly significant aspects of Cornwall's historic environment include:</u> <u>• The uniquely preserved prehistoric archaeological landscapes of the granite uplands,</u> <u>• The number and variety of surviving prehistoric monuments all over Cornwall including quoits and barrows, standing stones, fogous, courtyard houses, rounds and hillforts.</u> <u>• The enclosed lowland landscapes of medieval fields, and a predominantly dispersed rural settlement pattern of farming hamlets and medieval church-towns largely named using the Cornish language;</u> <u>• Culturally and geologically distinctive farm buildings and farmstead patterns including post-medieval smallholding landscapes specifically related to the socio-economic conditions of Cornish mining.</u> <u>• The distinctive 19th and early 20th century horticultural landscapes of the Tamar Valley and the coastal-slope fields of South Penwith.</u> <u>• A rich multi-denominational ecclesiastical heritage with a distinctly Cornish character of early church and lann sites, early medieval inscribed stones and crosses, holy wells, high medieval church buildings and non-conformist chapels;</u> <u>• An historic communications network including ancient byways and church-paths peppered with wayside crosses, guide-stones, milestones and fingerposts, former industrial tramways, and an extensive main line and branch rail network with significant local character;</u>

Main Modifications	Page	Policy/ Supporting Text	Proposed modification
			● <u>Significant historic international communications heritage: Packet Service quays (Falmouth); international submarine telegraph station, Porthcurno; Marconi wireless stations (Poldhu and Bass Point); earliest and largest international satellite telemetry station, Goonhilly (1962-2008).</u> ● <u>The distinctive number and variety of towns and villages with medieval market Boroughs; fishing villages; 19th century mineral ports; and 19th/ 20th century seaside towns with Urban townscapes, streetscapes and buildings from the medieval period to the present day reflecting the unique narratives of Cornish history;</u> ● <u>A maritime historic environment of significant ports, harbours and quays, lighthouses, seamarks, lifeboat stations, and wrecks, the heritage of the fishing and ship building industries, the transport of mineral products and fuels, and the more recent but no less significant heritage of the holiday and leisure industry.</u> ● <u>A distinctive industrial character including the internationally significant post-medieval mining landscapes and settlements of the Cornwall and West Devon World Heritage Site and the no less distinctive slate and granite quarrying and china clay and china stone industries with their associated processing works, transport networks and characteristic settlements.</u> ● <u>An ornamental heritage of country houses and designed landscapes, public parks and gardens significant both for the exotic variety of species supported and its cultural links with the economic and geographic reach of the Cornish industrial revolution.</u> ● <u>The number and variety of Tudor to 20th century fortifications and military sites including 15th- 20th century coastal defences and fortresses, Civil War earthworks and WW1 and WW2 remains, all epitomised by the outstanding military complexes around St Ives, St Michael's Mount, Falmouth, the Cornish defences of Plymouth.</u> ● <u>A powerful sense of place as evidenced by surviving Cornish language place-names; enduring medieval place-based myths and legends and festivals; images, representations, buildings and places associated with art colonies and a renowned literary heritage both rooted in the landscape.</u> ● <u>Throughout Cornwall there are distinctive industrial landscapes that reflect its pioneering role in the development of the Industrial Revolution. These include the extensive, internationally</u>

Main Modifications	Page	Policy/ Supporting Text	Proposed modification
			<u>significant post-medieval metal (principally tin, copper and arsenic) mining landscapes, associated industries, transport networks and settlements of the Cornwall and West Devon Mining Landscape World Heritage Site, the protection of which is governed by the UNESCO Convention on the Protection of World Natural and Cultural Heritage (1972). The equally distinctive slate, granite quarrying and china clay and china stone industries make a substantial contribution to the special landscape character in several parts of Cornwall and this should be reflected in planning decisions.</u> <u>The NPPF draws a distinction between significance and importance – all heritage assets have significance, but there are degrees of importance accorded to different assets, usually reflected in levels or grades of designation. The greater importance the asset has, the greater level of assessment would be expected, and when considering the impact of a proposed development on significance, the greater the weight will be accorded to the asset’s conservation.</u> <u>The significance of a heritage asset can be harmed or lost through alteration or destruction of the asset or development within its setting. Any harm or loss, including cumulative impacts and less than substantial harm, will require clear and convincing justification to allow the harm to be balanced against any public benefits of the proposal.</u> <u>The more important the asset the greater the presumption against harm; proposals leading to substantial harm of the most important assets would have to be wholly exceptional, and will have to demonstrate a lack of viable alternative schemes or uses, and the most substantial overriding public benefits. Scheduled monuments, protected wreck sites, battlefields, grade I and II* listed buildings, grade I and II* registered parks and gardens, and the World Heritage Site are considered to be of the greatest importance in this regard.</u> <u>However, the same expectations for proportionate assessment and the need for justification through overriding public benefits apply to other designated assets (grade II listed buildings, parks or gardens) and all non-designated assets, as appropriate to their significance. Non-designated assets</u>

Main Modifications	Page	Policy/ Supporting Text	Proposed modification
			<u>could be buildings, monuments, archaeological sites, places, areas or landscapes positively identified (in the Historic Environment Record, Conservation Area Appraisals or Neighbourhood plans, or equivalent, or through assessment within the Planning processes) as having a degree of significance meriting consideration in planning decisions.</u>
129	52	2.108	Amend paragraph 2.108 to read: Cornwall <u>Historic Environment Record</u> has over 56,000 Historic Environment Records including details of <u>entries. Cornwall also has</u> the largest number of statutorily protected Heritage Assets in any unitary council area, <u>with over 12,800 listed buildings and 1588 scheduled monuments.</u> The Council's own estate includes the largest number of statutorily protected Heritage Assets in the care of a local authority. <u>Historic England keep an up to date register of all listed buildings and scheduled ancient monuments and proposals will be encouraged which support re-use, or more efficient existing use where this preserves or enhances heritage significance of those identified nationally or locally as at risk. The Council will monitor buildings or other heritage assets at risk through neglect, decay or other threats. Any proposal should seek to incorporate solutions for assets at risk and provide solutions for repair and maintenance of the asset wherever possible.</u>
130/1	52	2.108	Insert new paragraphs after 2.108 to read: <u>Heritage assets are an irreplaceable resource, therefore proposals for development should be informed by and will be determined in line with statutory requirements, national policy guidance and specific relevant guidance, principles and best practice. At present this includes both national guidance, such as relevant Historic England publications (e.g. Conservation Principles, Historic Environment Good Practice Advice in Planning Notes; Decision making, Setting of Heritage Assets), and locally specific guidance such as the Guidance for Methodist and Nonconformist chapels in Cornwall.</u>

Main Modifications	Page	Policy/ Supporting Text	Proposed modification
			<u>The Council is producing Supplementary Planning Documents on both the Historic Environment and World Heritage Site which will help establish best practice criteria, help define the distinctive character of the historic environment of Cornwall, provide guidance on use of assessment frameworks and methods and on the interpretation of significance within the Cornish, national and international contexts, and define the requirements of Heritage Statements.</u> <u>Other specific relevant sources of information and guidance which should inform both applications and decision making can be found as follows:</u> <u>Advice and guidance documents produced by Historic England can be found by visiting: https://historicengland.org.uk/images-books/publications</u> <u>The Cornwall and West Devon Mining Landscape World Heritage Site Management Plan is available at: http://www.cornish-mining.org.uk/sites/default/files/Cornwall and West Devon Mining Landscape World Heritage Site Management Plan 2013-2018.pdf</u>
130/2	52	2.108	<u>Scheduled Ancient Monuments: Many internationally and nationally important archaeological sites are designated as Scheduled Monuments. Works affecting a Scheduled Monument require the consent of the Secretary of State. Landowners or developers seeking to carry out works which might impact on a Scheduled Monument or its setting should seek the advice of Historic England at an early stage.</u> <u>Archaeology: Applications which have the potential to impact on archaeological remains will need to be accompanied by assessments and field evaluations sufficient to define their significance prior to the submission of applications. Applicants which should outline any mitigation measures and the steps to be taken to record, retain, incorporate, protect, enhance and where appropriate manage the archaeological interest, as part of the proposals. Non designated heritage assets of archaeological interest of equivalent significance to Scheduled Monuments shall be dealt with as subject to the</u>

136	53	Policy 25	Not needed for soundness.
137	54	2.116	Amend paragraph 2.116 to read: Policies will seek to ensure development does not add to the flooding of existing communities and new development is located to avoid areas of flood risk as a first principle to minimise its risk of flooding. <u>Policy 26 is intended to complement national policy and guidance on avoiding and minimising flood risks, particularly the application of the sequential and exception tests and the recognition of the differing vulnerability to flood risk of different types of use and development, the sequential test should be applied in assessing the selection of sites to be allocate in subsequent plans and for designing the layout of development on sites where part of a site may be at risk of flooding.</u> <u>The context for flood risk in Cornwall is set out in the Shoreline Management Plan and Catchment Flood Management Plans for Cornwall and the South West River Basin Management Plan. The Strategic Flood Risk Assessment, which accompanies the Local Plan, includes an interactive map showing the various strategies concerning flood risk. The National Marine Policy Statement is the framework for taking decisions affecting the marine environment and the planned South West Marine Inshore and Offshore Plans will augment this.</u>
138	54	Policy 26	Amend Policy 26 to read: Policy 26: Flood risk management and coastal change

Main Modifications	Page	Policy/ Supporting Text	Proposed modification
			1. Development should take account of <u>and be consistent with</u> any adopted strategic and local flood and coastal management strategies <u>including the Shoreline Management Plan and Catchment Flood Management Plans for Cornwall and the South West River Basin Plan.</u> 2. Development should be sited, designed, of a type and where necessary relocated in a manner that: a. increases flood resilience of the area, taking account of the area's vulnerability to the impacts of climate change and coastal change and the need to avoid areas of flood risk, where possible, in the first instance, <u>taking into account the vulnerability of the use proposed; and</u> b. minimises, <u>or</u> reduces <u>and where possible, eliminates</u> flood risk on site and in the area; <u>and</u> c. enables / or replicates natural <u>ground and surface</u> water flows and decreases surface water runoff , particularly in Critical Drainage Areas, through sustainable urban drainage systems (SUDS), utilising green infrastructure where possible and as guided by local standards, including Cornwall drainage guidance; <u>and</u> d. is consistent with the policies and actions in the Shoreline Management Plan and Catchment Flood Management Plans for Cornwall and the South West River Basin Management Plan the national Marine Policy Statement is the framework for taking decisions affecting the marine environment and the planned South West Marine Inshore and Offshore Plans will augment this; <u>d. the safeguarding of land, where it is identified to be functional flood storage, to make space for water at times of flood.</u> e. <u>where applicable,</u> supports community-led local solutions to managing flood risk and coastal change; and f. does not create avoidable future liability for maintenance for public bodies and communities. 3. Development proposals of 10 dwellings or more or over 0.5 ha should provide a long term water management plan, which includes maintenance of surface water drainage systems, measures to improve the

Main Modifications	Page	Policy/ Supporting Text	Proposed modification
			network of surface water drainage systems on and around the site (e.g. culverts etc.) and identifies opportunities and funding for future enhancement.
139	55	2.117	<i>Not needed for soundness.</i>
140	55	2.119	<i>Not needed for soundness.</i>
141	56	Policy 27	Amend Policy 27 to read: Policy 27: Transport and accessibility For major developments to ensure a resilient and reliable transport system for people, goods and services, development proposals should: 1. Be consistent with and contribute to the delivery of Connecting Cornwall 2030, Cornwall's Local Transport Plan or any subsequent LTPs; and 2. Locate development and / or incorporate a mix of uses so that the need to travel will be minimised and the use of sustainable transport modes can be maximised by prioritising safe access by walking, cycling and public transport and providing new facilities and services to minimise car travel; and 3. Locate larger developments which attract a proportionally larger number of people in the city and main towns or locations which are highly accessible by public transport or areas which will be made highly accessible by the development. Any proposals which do not accord with this will require significant justification and provide clear transport benefits; and 4. Be designed to provide convenient accessible and appropriate cycle and pedestrian routes, public transport and road routes within and in the immediate vicinity of the development; The inclusion of electric vehicle charging infrastructure and real time passenger information / journey planning will be considered favourably and

Main Modifications	Page	Policy/ Supporting Text	Proposed modification
			5. Be accompanied with <u>by an</u> effective travel plans <u>that delivers hard and soft measures to support new occupants in adopting sustainable travel habits</u>; to mitigate the impact of development and 6. Safeguard <u>land for the delivery of</u> strategic transport opportunities including land around existing facilities to allow for expansion and use for future sustainable modes of travel e.g. closed branch rail lines and links to the Isles of Scilly. and 7-(8) Provide public transport solutions including park and ride where there is evidence that it will remove traffic from the highway network, is economically viable and that which accord with the appropriate transport strategy for the area- <u>All developments should:</u> <u>Provide safe and suitable access to the site for all people and not cause a</u> significantly adversely impact on the local or strategic road network that cannot be managed or mitigated.
142	57	2.124	Amend paragraph 2.124 to read: Priorities for investment will be established through a robust process informed by the infrastructure needs assessment schedule preparation and will include the opportunity for investment in local projects too, by the allocation of a meaningful proportion of the charge to local areas. The list of infrastructure that the Council intends to spend the Community Infrastructure Levy on is <u>will be</u> contained in the Regulation 123 list. <u>The Council will continue to work in partnership with infrastructure providers and other delivery agencies to keep an up to date infrastructure delivery plan that will enable proposals, in accordance with the spatial objectives, to be brought forward.</u> <u>Particular importance is placed upon the provision of adequate sewerage and sewage waste</u>

Main Modifications	Page	Policy/ Supporting Text	Proposed modification
			<u>treatment facilities. In areas where development without the provision of adequate facilities could impact on the integrity of the designated or candidate international wildlife sites, including the Fal and Helford and River Camel SACs and Tamar Estuaries Complex SPA development proposals will be refused where there is an impact in line with policy 23 of this plan (see sections 14 and 15 below for more background)</u>
143	57	Policy 28	Amend Policy 28 to read: Policy 28: Infrastructure <u>Developer contributions will be sought to ensure that the necessary physical, social, economic and green infrastructure is in place to deliver development. Contributions will be used to provide or enhance local infrastructure that is adversely affected by the development of a site but which will not be delivered on that site.</u> <u>Development will be permitted where it would:</u> <u>1.</u> New development must Be supported by appropriate infrastructure provided in a timely manner; The Council will continue to work in partnership with infrastructure providers and other delivery agencies to keep an up to date infrastructure delivery plan that will enable proposals, in accordance with the spatial objectives, to be brought forward. and 2. Developer contributions, as a Community Infrastructure Levy and based on the strategic viability assessment, will be sought to ensure that the necessary physical, social, economic and green infrastructure is in place to deliver development. Contributions will be used to provide or enhance local infrastructure that is adversely affected by the development of a site but which will not be delivered on that site. <u>2.</u> 3. Developers will, in addition, be required to Provide on-site mitigation measures or make financial contributions for site specific infrastructure provision not in the Regulation 123 list, including maintenance

Main Modifications	Page	Policy/ Supporting Text	Proposed modification

225	146	Monitoring Framework	That the monitoring framework be amended as follows (<i>one amendment from published change under policy 4</i>):
-----	-----	----------------------	--

Main Modifications	Page	Policy/ Supporting Text	Proposed modification
--------------------	------	----------------------------	-----------------------

Key outcome sought	Indicator	Trends / Targets
Part 1: Strategic Policies		
Policy 1: Presumption in Favour of Sustainable Development		
	The achievement of all indicators for policies in the whole plan collectively contribute to the delivery of Policy 1	All monitoring targets met or exceeded
Policy 2: Spatial Strategy		
	The achievement of all indicators for policies in the whole plan collectively contribute to the delivery of Policy 2	All monitoring targets met or exceeded
Policy 2a Key Targets		
Job provision	2.1: Number of new jobs created	Provision of 38,000 full time jobs within the plan period.
Employment floorspace provision	2.2: Amount of net additional B Class employment floorspace provided	- Delivery of 704,000 sq. metres of employment floorspace over the plan period of which 359,583 sq. metres to be B1a and b office use and 344,417 sq. metres to be B1b and c, B2 and B8 industrial premises. - Delivery in accordance with sub area targets identified in the Policy
Purpose built student accommodation	Net additional purpose built student accommodation	Delivery of purpose built student accommodation that meets the needs generated through the expansion of the university in Falmouth and Penryn
Gypsy and Traveller site provision	12: Net additional Gypsy Traveller pitches provided by: (i) Residential Pitches; (ii) Transit Pitches; and (iii) Showpeople	Delivery of 318 residential pitches; 60 Transit pitches; and 11 Show People Pitches in the plan period
<u>Communal establishment provision</u>	<u>Net additional communal nursing and specialist accommodation for older persons</u>	<u>Delivery of 2,550 bed spaces in communal establishments (defined as Residential Care and or Nursing Homes)</u>
New home provision	2.5 Housing Trajectory including: a) Net additional dwellings in previous years; b) Net additional dwellings for the reporting year; c) net additional	- To deliver a minimum of 2,625 dwellings per year (residual delivery of a minimum of 52,500 dwellings over the plan period - To ensure at least a 5 year supply of deliverable housing sites

Main Modifications	Page	Policy/ Supporting Text	Proposed modification
--------------------	------	----------------------------	------------------------------

Key outcome sought	Indicator	Trends / Targets
	dwelling in future years and; d) the managed delivery target <u>2.6 Amount of new housing development allocated in Neighbourhood Plans</u>	• Delivery in accordance with sub area targets identified in the Policy • <u>To ensure that Neighbourhood Plans allocate land for housing to meet any shortfall within 2 years of the adoption of the Local Plan Strategic Policies</u>
Policy 3: Role and Function of Place		
Strategic distribution of development	3. Amount and proportion of all major development provided in settlements. 3.1 Net additional dwellings provided in named settlements and the remainder of the CNA. <u>3.2 Development of eco-communities at West Carclaze/Baal and par Docks</u>	• Delivery in accordance with sub area targets • <u>Planning application for development at West Carclaze/Baal approved and or allocated in a submitted site allocations Local Plan within two years of adoption of the Cornwall Local Plan- Strategic Policies</u>
Policy 4: Shopping, Services and Community Facilities		
Viability and vitality of retail town centres	4.1 Amount and type of town centre uses floorspace provided (i) within town centres areas (ii) edge of centre and out of centre locations and (iii) out of town areas with CNA	• Report annual delivery by (i) town centres areas and (ii) edge of centre and out of centre locations and (iii) out of town areas within CNA
	4.2 The amount of retail service, comparison and convenience floorspace in the main town centres 4.2a The changes in the proportion of retail uses within prime Primary Shopping Areas	• Report as change over time and in relation to the Cornwall average <i>(Proposed additional target not justified)</i>
	4.3: Amount of retail and community facilities lost in smaller settlements	• No net loss of existing services and facilities in smaller settlements
	4.4 Vacancy rates in main town centres	• Rates to at or below the national average

Main Modifications	Page	Policy/ Supporting Text	Proposed modification
--------------------	------	----------------------------	-----------------------

Key outcome sought	Indicator	Trends / Targets
Policy 5: Jobs and Skills <u>Business and Tourism</u>		
New Jobs and economic growth	5.1: Amount and type of employment floorspace provided and lost : (i) within settlements;(ii) on established employment sites; and (iii) in rural areas	Report annual delivery and losses by (i) settlements (ii) an established employment site(iii) in other locations
Enhanced quality and range of tourist facilities	5.2: Amount and quality of new tourism facilities	Net increase
Provision of educational facilities	5.3: Amount of new educational facilities to support further and higher education	Net Increase
Safeguarding Employment Land	5.4: Amount of employment land lost to other uses from safeguarded employment sites	No net loss of viable employment land on safeguarded employment sites
Policy 6: Housing Mix		
Provision of housing for households with specific needs	6.1 Amount of housing provided to meet households with specific needs	Net increase
Ensure the provision of an appropriate mix of housing	6.2: Amount of new housing provided by house type, tenure and size	All new housing developments of 10 or more dwellings provide an appropriate housing mix that reflects local housing market need
Provision of self build and custom build housing.	6.3: Number of self build and custom build housing provided in total and proportion on sites of 100 or more	- Net increase 5% on sites of 100 or more to be self build or custom build.
Policy 7: Housing in the Countryside		
Restrict housing development in the countryside	7: Amount of housing development in the open countryside approved in accordance with policy 7 as a proportion of all housing development in the open countryside.	100%
Policy 8: Affordable Housing		
Affordable housing provision to meet needs	8.1: Number and amount of affordable homes provided: (i) on sites of 0.2ha in size; and (ii) on sites with a net increase of 2 dwellings or more <u>8.1: Number of affordable homes provided: (i) on sites where dwellings would have a combined gross floorspace of more than 1000</u>	To attain a contribution towards affordable housing on all development with a net increase of over 2 dwellings or 0.2ha in size <u>To attain a contribution towards affordable housing provision on all development with a combined gross floor space of more than 1000 square metres or on sites with a net increase of 10 or more dwellings or on sites of 6 or</u>

Main Modifications	Page	Policy/ Supporting Text	Proposed modification
--------------------	------	----------------------------	-----------------------

Key outcome sought	Indicator	Trends / Targets
	<u>square metres; or (ii) on sites with a net increase of 10 dwellings</u> <u>8.1a Amount of contribution towards affordable housing provision on sites of 6 to 9 dwellings in rural parishes</u>	<u>more dwellings in rural areas</u>
	8.2: Number of affordable proposals meeting the threshold target of 70% affordable rent and 30% shared equity in their overall housing product	No affordable proposals below the threshold target of 70% affordable rent and 30% shared equity in their overall housing product
	8.3: Amount of affordable housing provided on sites of 0.2ha or 2 dwellings or more meeting the minimum threshold by Zone	All new housing of two or more dwellings or 0.2ha or over <u>developments above the affordable housing threshold</u> to meet the minimum percentage of affordable housing for the appropriate zone: 50% in zone 1, 40% in zone 2 , 35% in zone 3, 30% in zone 4 and 25% in zone 5.
	<u>8.4 Affordable homes provided through means other through S106 agreements or on exceptions sites</u>	<u>Homes and Communities Agency funded affordable homes – 70 per annum between 2015-18 and 100 per annum 2019-25</u> <u>Affordable Homes provided through Cornwall Council's capital programme – 245 per annum between 2016-19</u> <u>Open market housing converted to Affordable Homes 55 per annum</u>
Policy 9: Rural Exception Sites		
Provision of affordable housing to meet needs		
	9 The number of and proportion of (i) Affordable housing and (ii) market housing granted permission on exceptions sites	- A greater proportion of affordable housing as opposed to market housing provided on each exceptions site <u>150 Affordable homes per year provided on exceptions sites</u>
Policy 11: Managing Viability		

Main Modifications	Page	Policy/ Supporting Text	Proposed modification
--------------------	------	----------------------------	-----------------------

Key outcome sought	Indicator	Trends / Targets
	11: Percentage of housing schemes not able to deliver the full quota of affordable housing and therefore applying policy 11 criteria 11.1 Number of sites granted permission where measures required by the policy are secured in lieu of full affordable housing provision	Zero
Policy 12: Gypsies and Travellers		
Gypsy and Traveller site provision	<u>12: Number and proportion of applications refused on grounds of not complying with policy</u>	<u>All residential and transit site developments meeting the requirements of the policy</u>
Policy 13: Design		
High quality design in new development	13-Number of applications refused on design grounds.	Improved standard of design in development proposals
Policy 14: Development Standards		
	14: Number and proportion of applications refused on grounds of not complying with the Development Standard policy	Improvement in space standards in development proposals
Policy 15: Renewable and Low Carbon Energy		
Increase renewable energy consumption	15: Amount of: (i) renewable energy capacity and low carbon energy generation installed; and (ii) useable heat generation capacity installed	Net increase
Policy 16: Safeguarding Renewable Energy		
Protection of renewable energy installations	16: Number or proportion of applications refused on grounds of potentially effecting Renewable energy capacity of existing installations	100%
Policy 17: Health and Well Being		
Improvement in Health and well being	17.1: Net amount of informal open spaces provided by major developments	Net increase
	17.2: Net amount of formal open spaces and travel networks provided by type including: Recreation grounds, parks and gardens, play space, sports pitches, footpaths and cycle paths	Net Increase

Main Modifications	Page	Policy/ Supporting Text	Proposed modification
--------------------	------	----------------------------	-----------------------

Key outcome sought	Indicator	Trends / Targets
	17.3: Provision of community spaces by type including; (i) community centres and village halls; and (ii) indoor sports and other recreational facilities	Net Increase
Policy 18: Minerals – General Principles		
Development principles	18. Mineral production (tonnes) of various sectors (primary aggregates, secondary / recycled aggregates, building stone, china clay and metalliferous minerals) in the county	- Primary aggregate production in line with the annual Local Aggregates Assessment - Net increase in the production of secondary/recycled aggregate
Policy 19: Minerals Safeguarding		
Safeguard Minerals reserves	19: Number of applications granted on safeguarded mineral sites identified as causing the sterilization of the mineral reserves	No net loss to sites safeguarded for their mineral reserves
Policy 20: Strategic Waste Management Principles		
Development Principles	20.1: Capacity of existing and new waste management facilities for: (i) transfer stations; (ii) Composting; (iii) Recycling; (iv) energy from waste; and (v) landfill	No change in capacity for all waste facility types apart from an increase in: (a) construction and demolition waste landfill provision of 659,000 tonnes; (b) construction and demolition waste recycling of 377,000 tonnes; and (c) 200,000m3 of landfill capacity for Local Authority collected waste
	20.2: Amount of waste a) recycled b) composted and c) landfilled by (i) households and ii) commercial and industrial.	Annual net increase
	20.3: Amount of waste used in energy production	Annual net increase
Policy 21: Managing the Provision of Waste Management Facilities		
Development principles	21: Number and proportion of applications for new waste management facilities approved on policy grounds	100%
Policy 22: The Best Use of Land		
The efficient use of Land	22.1: The amount (%) of residential development provided on previously developed land.	Reported figure as trend
	22.2: The amount (%) of employment floorspace	Reported figure as trend

Main Modifications	Page	Policy/ Supporting Text	Proposed modification
--------------------	------	----------------------------	-----------------------

Key outcome sought	Indicator	Trends / Targets
	provided on Previously developed land_	
	22.3: The amount of Grade 1, Grade 2 and Grade 3a Agricultural land lost to other uses	Reported figure as trend
Policy 23a: European Protected Sites		
	23 Number of residential, student and tourist accommodation developments granted permission within zones of influence where mitigation measures are secured.	Mitigation measures secured for all permission residential, student and tourism accommodation within zones of influence that require mitigation to overcome any adverse effect
Policy 23: Natural Environment		
Protection of the natural environment	23.1: Single Data List I160-00 Improved local biodiversity, the proportion of local sites (CWS) where active positive conservation management is being achieved	Improve and increase.
	23.2: Amount of biodiversity habitat gained through mitigation through 106 agreements	Net increase in current levels of biodiversity habitat through the creation of: (i) new Wildlife Corridors and (ii) new Local Wildlife Sites
	23.3: % of SSSIs in a favourable or recovering condition	Improve
Protection of the Landscape	23.3: Number of new dwellings approved in the landscape designations AONB and Heritage Coast	Report Trend
	23.4: Number of applications approved for wind turbines and Solar Farms in the landscape designations AONB and Heritage Coast	Report Trend
Policy 24: Historic Environment		
Protection and enhancement of the historic environment	24.1: Number of listed buildings on the 'At Risk' Register	Decrease
	24.2: Number of major applications approved in	Zero

Main Modifications	Page	Policy/ Supporting Text	Proposed modification
--------------------	------	----------------------------	-----------------------

Key outcome sought	Indicator	Trends / Targets
	WHS contrary to advice of English Heritage	
	24.3 Number of applications refused due to the impact upon the historic environment.	Reduced adverse impact of development upon the historic environment
Policy 25: Green Infrastructure		
	25.1: Amount of green infrastructure provided through S106 agreements on major application approvals	Report trend
	25.2: Open space managed to green flag status	Maintain or improve accessibility to good quality open space
Policy 26: Flood Risk Management and Coastal Change		
	26: Number of applications approved contrary to the advice of EA on (i) flooding grounds (ii) water quality	Zero
Policy 27: Transport and Accessibility		
	27.1: Working age people with access to employment by public transport (and other specified modes) NI176 <u>Percentage of people living within 30 minutes of an employment centre employing more than 500 people that use public transport or walk</u>	75.1% by 2015 <u>85%</u>
	27.2: Access to services and facilities by public transport NI175	Increase
Policy 28: Infrastructure		
	28.1: Achievement towards the 5 year delivery and investment plan by CNA and strategic delivery plan	Monitor progress in the delivery of critical and necessary projects and the amount of accumulated funding
	28.2: Amount of Section 106 contribution, financial and non-financial contributions	Increase or reported performance
Generic indicators applied to each CNA		
Housing	PPA: Annual number of dwelling provided in the CNA	Applied against specific target for number of dwellings by town

Main Modifications	Page	Policy/ Supporting Text	Proposed modification
-----------------------	------	----------------------------	------------------------------

Key outcome sought	Indicator	Trends / Targets
	compared to the residual target	and or CNA to 2030
Employment	PPB: Amount of B Class employment floorspace provided compared with the residual target	Applied against specific square metre floorspace targets by B1a / B1b office and B1c, B2 and B8 industrial uses by CNA to 2030
Retail	PPC: Amount of convenience and comparison retail floorspace provided within, on the edge of and outside town centres	Applied against specific square metre floorspace targets by convenience and comparison retail uses by main towns to 2030
